*People's Republic* Hodder Children's Books Summer, 1940. Hitler's army is advancing towards Paris, and millions of French civilians are on the run. Amidst the chaos, two British children are being hunted by German agents. British spy Charles Henderson tries to reach them first, but he can only do it with the help of a twelve-year-old French orphan. The British secret service is about to discover that kids working undercover will help to win the war.

*CHERUB VOL 2, Book 2* Simon and Schuster  
Late summer, 1940. Hitler has conquered France. Now he intends to cross the

**Bodyguard: Fugitive** Penguin

Under American law, kids convicted of serious crimes can be sentenced as adults. Two hundred and eighty of these child criminals live in the sunbaked desert prison of Arizona Max. In one of the most dangerous CHERUB missions ever, James Adams has to go undercover inside Arizona Max, befriend an inmate and then bust him out. CHERUB kids are trained

professionals, working in everyday situations. Their essential advantage: adults never suspect that children are spying on them. For official purposes, these children do not exist.

**Black Friday** Hachette UK  
Gang warfare gets gruesome in the eighth book of the CHERUB series, which Rick Riordan says has "plenty of action." CHERUB agents are highly trained, extremely talented—and all under the age of seventeen. For official purposes, these agents do not exist. They are sent out on missions to spy on terrorists, hack into crucial documents, and gather intel on global threats—all without gadgets or weapons. It is an extremely dangerous job, but these agents have one crucial advantage: Adults never suspect that teens are spying on them. In *Mad Dogs*, the British underworld is controlled by

gangs. When two of them start a turf war, violence explodes onto the streets. The police need information fast, and James has the contacts to infiltrate the most dangerous gang of all...

[Eagle Day](#) Power of Five

CHERUB agents are all seventeen and under. They wear skate tees and hemp, and look like regular kids. But they're not. They are trained professionals who are sent out on missions to spy on terrorists and international drug dealers. CHERUB agents hack into computers, bug entire houses, and download crucial documents. It is a highly dangerous job. For their safety, these agents DO NOT EXIST. When CHERUB uncovers a link between eco-terrorist group Help Earth and a wealthy religious cult known as The Survivors, James is sent to their isolated outback headquarters on an infiltration mission. It's a thousand kilometers to the closest town, and James is under massive pressure from the cult's brainwashing techniques. This time he's not just fighting terrorists.... He's got to battle for his own mind.
