DK Eyewitness Chile and Easter Island Guinness World Records

A beautifully illustrated journey through the history of travel--and traveling in style--from one of the world's preeminent fashion brands The mid-19th and early 20th centuries heralded new means of transport and equipment and, with them, new and original ways of exploring the world. Transatlantic liners, automobiles, long-haul airplanes, zeppelins, and express trains unfurled new horizons and changed travel itself into an adventure. Distant lands were no longer solely accessible to aristocrats, explorers, and adventurers. Instead, the world opened up to new groups of people eager to circumvent the globe. And for many of these new globetrotters, traveling was synonymous with Louis Vuitton, the French label whose iconic and functional luggage trunks could be found on nearly every boat, plane, car, and train around the world. In this beautiful book, author Francisca Mattéoli recounts 50 tales of thrilling travel undertaken in every possible mode of transit, from the hot air balloon to the space shuttle, each lavishly illustrated with more than 300 historical photographs and ephemera from Louis Vuitton's official archives. Louis Vuitton: Extraordinary Voyages is a journey all its own--an evocative and transporting account of the most surprising and transformative trips taken since the 19th century.

A REESE'S BOOK CLUB PICK Winner of the 2022 BookTube Silver Medal in Fiction * Shortlisted for the Women's Prize for Fiction "A wise novel of love and grief, roots and branches, displacement and home, faith and belief. Balm for our bruised times." -David Mitchell, author of Utopia Avenue A rich, magical new novel on belonging and identity, love and trauma, nature and renewal, from the Booker-shortlisted author of 10 Minutes 38 Seconds in This Strange World. Two teenagers, a Greek Cypriot and a Turkish Cypriot, meet at a taverna on the island they both call home. In the taverna, hidden beneath garlands of garlic, chili peppers and creeping honeysuckle, Kostas and Defne grow in their forbidden love for each other. A fig tree stretches through a cavity in the roof, and this tree bears witness to their hushed, happy meetings and eventually, to their silent, surreptitious departures. The tree is there when war breaks out, when the capital is reduced to ashes and rubble, and when the teenagers vanish. Decades later, Kostas returns. He is a botanist looking for native species, but really, he's searching for lost love. Years later a Ficus carica grows in the back garden of a house in London where Ada Kazantzakis lives. This tree is her only connection to an island she has never visited--- her only connection to her family's troubled history and her complex identity as she seeks to untangle years of secrets to find her place in the world. A moving, beautifully written, and delicately constructed story of love, division, transcendence, history, and eco-consciousness, *The Island of Missing Trees* is Elif Shafak's best work yet.

This major new history of the Ottoman dynasty reveals a diverse empire that straddled East and West. The Ottoman Empire has long been depicted as the Islamic, Asian antithesis of the Christian, European West. But the reality was starkly different: the Ottomans' multiethnic, multilingual, and

multireligious domain reached deep into Europe's heart. Indeed, the Ottoman rulers saw themselves as the new Romans. Recounting the Ottomans' remarkable rise from a frontier principality to a world empire, historian Marc David Baer traces their debts to their Turkish, Mongolian, Islamic, and Byzantine heritage. The Ottomans pioneered religious toleration even as they used religious conversion to integrate conquered peoples. But in the nineteenth century, they embraced exclusivity, leading to ethnic cleansing, genocide, and the empire's demise after the First World War. The Ottomans vividly reveals the dynasty's full history and its enduring impact on Europe and the world.

"This is a very important book."--Martin Wolf, Financial Times A provocative look at how today's trade conflicts are caused by governments promoting the interests of elites at the expense of workers Longlisted for the 2020 Financial Times & McKinsey Business Book of the Year Award "Worth reading for [the authors'] insights into the history of trade and finance."--George Melloan, Wall Street Journal Trade disputes are usually understood as conflicts between countries with competing national interests, but as Matthew C. Klein and Michael Pettis show, they are often the unexpected result of domestic political choices to serve the interests of the rich at the expense of workers and ordinary retirees. Klein and Pettis trace the origins of today's trade wars to decisions made by politicians and business leaders in China, Europe, and the United States over the past thirty years. Across the world, the rich have prospered while workers can no longer afford to buy what they produce, have lost their jobs, or have been forced into higher levels of debt. In this thought-provoking challenge to mainstream views, the authors provide a cohesive narrative that shows how the class wars of rising inequality are a threat to the global economy and international peace--and what we can do about it.

Thomas Lipton burst onto the national scene in 1897, the year of Queen Victoria's Diamond Jubilee. The Princess of Wales had launched a £30,000 fund to provide a Jubilee dinner for the poor, but, with only weeks to go, no more than £5,000 had been subscribed. Lipton saved the day by writing a cheque for £25,000. The anonymous gift created massive press speculation and even greater publicity when the identity of the donor leaked out two days later. Lipton's generosity earned him a knighthood and propelled him into society at the highest level, a personal friend of the future King and Queen. Many of the myths that surrounded Lipton in the latter part of his life were created at this time and would be fixed for ever in his autobiography, published shortly after his death in 1931. Until now, what we know of Sir Thomas Lipton, grocery millionaire and yachtsman, is what he chose to tell the world about himself. Now literally detective James Mackay has uncovered the true story of one of the turn of the century's most extraordinary, larger-than-life characters, a story which is indefinitely more dramatic than the accepted version. Virtually everything Lipton tells us about himself is now shown to be untrue - even the origins of his family, his name, his date of birth and the place where he was born. The man who was hailed as the world's most eligible bachelor (his name was linked romantically with Rose Fitzgerald, the future mother of John F. Kennedy) had at least two skeletons in the closet - a youthful indiscretion which led to a forced marriage, and a homosexual affair which lasted for thirty years. As a self-publicist he was a genius, and this was the key to his remarkable success. Beginning with a small shop in Glasgowie in 1871 he created a nationwide grocery chain second to none. In the process, he revolutionised the grocery retail trade, dealing direct with producers and eventually controlling production himself, with tea estates in Ceylon and meat-packing plants in Chicago. He combined a flair for organisation with superb showmanship, with stunts such as five-ton cheeses stuffed with gold sovereigns. In 1898 his company went public in one of the most successful share issues in stockmarket history. Lipton developed an interest in yachting which he pursued with the same single-mindedness as his business ventures. Between 1898 and 1930 he challenged for the America's Cup with a succession of yachts called Shamrock, but the rules of the race were heavily weighted in favour of the American defenders. The saga of his challenges, his near triumphs and the disappointments that would have destroyed a less heroic figure has become the most stirring in the annals of sport, and provides a fitting conclusion to the life of a maverick and outsider who was also one of the most colourful and flamboyant tycoons of all time.

Otto Wagner Allen & Unwin

Like the character Jack Reacher, I have drifted around the world for the past 20 years, ever since the age of 17. After reading so many Lee Child

books, I started to think about how my lifestyle looked a bit like his. I'm also a nomad with no real place to call home and no particular desire to find one. When people ask me where I live, I really don't know what to say. Right now I'm staying at an airbnb in Northern Cyprus, but next week who knows. The countries I have lived in are: Spain, Portugal, Italy, Costa Rica, Colombia, Brazil, Morocco, Turkey, Thailand, Taiwan, China, Malaysia, Northern Cyprus, the USA and Azerbaijan. This book is about how you can do the same, if you want. It draws on what I've learnt from travelling to over 100 countries and living in many different countries all over the world. Some of the information is of a practical nature: how to find the cheapest flights, how to check whether you need a visa, how to book hotels etc. I have included many tips based on my experience - things that I always find useful to take with me, how to make long journeys more bearable, how to prepare for a trip and what to pack etc. There is a large section about scams, so that you can avoid some of the traps that travellers sometimes fall into: taxi scams, car rental scams, romance scams, getting short-changed, getting overcharged or led to expensive establishments etc. Lastly, I talk a little bit about how you might feel when you get back home and how to deal mentally with the stresses of travel and how to put it all into perspective.
