Historian Iván Berend turns his attention to Central and Eastern Europe in the 19th century, a turbulent period. Extending up to World War I, the period contained the seeds of developments and crises that continue to haunt the region today.

A.Z. Çajupi, jeta dhe vepra I.B. Tauris

This book addresses important issues to the democratisation and development initiatives of developing countries. In many former colonies, the government remains centralised, and many in the population are unable to fully participate in its functioning. A critical difference between being a subject and a citizen is the ability to partake in governance. Such involvement requires knowledge, literacy, and the availability of literature in local and national languages. This book challenges policy makers and scholars to find creative ways of fostering political empowerment through developing language programmes.

Chronicle in Stone Nova Publishers

Masterful in its simplicity, *Chronicle in Stone* is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

Continuing the work undertaken in Vol. 1 of the *History of the Literary Cultures of East-Central Europe*, Vol. 2 considers various topographic sites—multicultural cities, border areas, cross-cultural corridors, multiethnic regions—that cut across national boundaries, rendering them permeable to the flow of hybrid cultural messages. By focusing on the literary cultures of specific geographical locations, this volume intends to put into practice a new type of comparative study.

Traditional comparative literary studies establish transnational comparisons and contrasts, but thereby reconfirm, however inadvertently, the very national borders they play down. This volume inverts the expansive momentum of comparative studies towards ever-broader regional, European, and world literary histories. While the theater of this volume is still the literary culture of East-Central Europe, the contributors focus on pinpointed local traditions and geographic nodal points. Their histories of Riga, Plovdiv,

Timișoara or Budapest, of Transylvania or the Danube corridor – to take a few examples – reveal how each of these sites was during the last two-hundred years a home for a variety of foreign or ethnic literary traditions next to the one now dominant within the national borders. By foregrounding such non-national or hybrid traditions, this volume pleads for a diversification and pluralization of local and national histories. A genuine comparatist revival of literary history should involve the recognition that “treading on native grounds” means actually treading on grounds cultivated by diverse people.

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of

the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life."--Ismail Kadare, Albanian writer.

An Albanian Historical Grammar Cornell University Press
The tender plant of Albanian literature grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short

History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European cultural history in general.

National literary histories based on internally homogeneous native traditions have significantly contributed to the construction of national identities, especially in multicultural East-Central Europe, the region between the German and Russian

hegemonic cultural powers stretching from the Baltic states to the Balkans. *History of the Literary Cultures of East-Central Europe*, which covers the last two hundred years, reconceptualizes these literary traditions by de-emphasizing the national myths and by highlighting analogies and points of contact, as well as hybrid and marginal phenomena that traditional national histories have ignored or deliberately suppressed. The four volumes of the *History* configure the literatures from five angles: (1) key political events, (2) literary periods and genres, (3) cities and regions, (4) literary institutions, and (5) real and imaginary figures. The first volume, which includes the first two of these dimensions, is a collaborative effort of more than fifty contributors from Eastern and Western Europe, the US, and Canada. The four volumes of the *History* comprise the first volume in the new subseries on *Literary Cultures*. [Gjurmime albanologjike](#) Skyhorse

In *Symbolism and Interpretation*, Tzvetan Todorov examines two aspects of discourse: its production, which has traditionally been the domain of rhetoric, and its reception, which has always been the object of hermeneutics. He analyzes the diverse theories of symbolism and interpretation that have been elaborated over the centuries and considers their contribution to a general theory of verbal symbolism, discussing a wide range of thinkers, from the Sanskrit philosophers and Aristotle to the German Romantics and contemporary semioticians. Todorov begins by examining general ideas of linguistic symbolism and the interpretive process. He then turns to a detailed consideration of two of the most influential and pervasive interpretative strategies in Western thought: the patristic exegesis of Augustine and Aquinas, and the philological exegesis foreshadowed in the work of Spinoza, developed by Wolf, Ast, Boeckh, and Lanson, and criticized by

Schleiermacher. Todorov clarifies in masterly fashion the intricacies of the many schools of thought and refines the concepts crucial to critical theory today, including the distinctions between language and discourse, direct and indirect meaning, sign and symbol. Ably translated by Catherine Porter, *Symbolism and Interpretation* provides a coherent and innovative framework that is indispensable to the study of semiotics, its history, and its future.
