## MIGUEL NAVARRO

The Transformation of Violent Intercommunal Conflict CSIS  
 Thoroughly updated and expanded, this new edition of *Negotiating Arab-Israeli Peace* examines the history of recurrent efforts to resolve the Arab-Israeli conflict and identifies a pattern of negative negotiating behaviors that seem to repeatedly derail efforts to achieve peace. In a lively and accessible style, Laura Zittrain Eisenberg and Neil Caplan examine eight case studies of recent Arab-Israeli diplomatic encounters, from the Egyptian-Israeli peace of 1979 to the beginning of the Obama administration, in light of the historical record. By measuring contemporary diplomatic episodes against the pattern of counterproductive negotiating habits, this book makes possible a coherent comparison of over sixty years of Arab-Israeli negotiations and gives readers a framework with which to assess the relative strengths and weaknesses of peace-making attempts, past, present, and future.

From Oslo to Iraq and the Road Map Emerald Group Publishing  
 As economic stagnation freezes the globe; capitalism is increasingly questioned; war, revolution and political instability unsettles the Middle East; and President Obama's campaign for the Presidency looms, Volume 23 of *Political Power and Social Theory* reflects on these and related issues and whether the concept of "capitalism" should be problemat

*Imagining Iraq* Routledge  
 "Lorsque Edward Said est mort en septembre 2003, après dix ans de lutte contre la leucémie, il était probablement l'intellectuel le plus célèbre du monde. [...] A partir de 1967, avec toujours plus de force et de passion, il a été un commentateur brillant et incontournable de la crise du Moyen-Orient et un avocat de la cause palestinienne. [...] Pendant trente ans, pratiquement à lui seul, il a maintenu ouverte en Amérique une conversation sur Israël, la Palestine et les Palestiniens. Ce faisant, il a rendu un service inestimable au pays, en prenant des risques personnels considérables." Tony Judt. Les articles de ce recueil vont de décembre 2000 à mars 2003. Presque tous ont été publiés initialement dans un journal arabophone, le quotidien Al-Ahram du Caire, ce qui permet aux lecteurs occidentaux d'Edward Said de savoir ce qu'il avait à dire à un public arabe. Ils proposent l'éclairage de "l'un des théoriciens les plus influents de la fin du XXe siècle" (Tony Judt) sur une période particulièrement tumultueuse au Moyen-Orient - déclenchement de la seconde Intifada, effondrement final du processus de paix, réoccupation par Israël de la Cisjordanie et de Gaza - et dans le monde - massacre du 11 septembre 2001, guerre de représailles en

Afghanistan, longue marche des Etats-Unis vers l'intervention en Irak.

**Palestinian Women and Popular Resistance** Routledge

An unbarred account of life in post-occupation Iraq and an assessment of the nation's prospects for the future  
**D'Oslo à l'Irak** Emerald Group Publishing  
 This book explores Palestinian women's views of popular resistance in the West Bank and examines factors shaping the nature and extent of their involvement. Despite the signing of the Oslo peace accords in 1993, the Occupied Palestinian Territories in the contemporary period have experienced tightened Israeli occupational control and worsening political, humanitarian, security, and economic conditions. Based on ethnographic fieldwork conducted with women in the West Bank, this book looks at how Palestinian women in the post-Oslo period perceive, negotiate, and enact resistance. It demonstrates that, far from being 'apathetic', as some observers have charged, Palestinian women remain deeply committed to the goals of national liberation and wish to contribute to an effective popular resistance movement. Yet many Palestinian women feel alienated from prevailing forms of collective popular resistance in the OPT due to the low levels of legitimacy they accord them. This alienation has been made stark by the gendered and intersecting impacts of expanding settler-colonialism, tightening spatial control, a professionalised and depoliticised civil society, reinforced patriarchal constraints, Israeli and Palestinian Authority (PA) repression and violence, and a deteriorating economy - all of which have raised the barriers Palestinian women face to active participation. Undertaking a gendered analysis of conflict and resistance, this volume highlights significant changes over the course of a long-running resistance movement. Readers interested in gender and women's studies, the Arab-Israel conflict and Middle East politics will find the study beneficial.

*Democracy in Iraq* Taylor & Francis

This insightful critical biography shows us an Edward Said we did not know. H. Aram Veesser brings forth not the Said of tabloid culture, or Said the remote philosopher, but the actual man, embedded in the politics of the Middle East but soaked in the values of the West and struggling to advance the best European ideas. Veesser shows the organic ties connecting his life, politics, and criticism. Drawing on what he learned over 35 years as Said's student and skeptical admirer, Veesser uses never-before-published interviews, debate transcripts, and photographs to discover a Said who had few inhibitions and loathed conventional routine. He stood for originality, loved unique ideas, wore marvelous clothes, and fought with molten fury. For twenty years he embraced and rejected, at the same time, not only the West, but also literary theory and the PLO. At last, his disgust with

business-as-usual politics and criticism marooned him on the sidelines of both. The candid tale of Said's rise from elite academic precincts to the world stage transforms not only our understanding of Said—the man and the myth—but also our perception of how intellectuals can make their way in the world. *Literature, Migration and the 'War on Terror'* Bloomsbury Publishing

This book is a cultural history, offering an historical account of the formation of a distinctive Omani culture; arguing that it is in this unique culture that a specific conception and practice of diplomacy has been developed.

**Between State and Non-State** Routledge

In his final book, completed just before his death, Edward W. Said offers impassioned pleas for the beleaguered Palestinian cause from one of its most eloquent spokesmen. These essays, which originally appeared in Cairo's Al-Ahram Weekly, London's Al-Hayat, and the London Review of Books, take us from the Oslo Accords through the U.S. led invasion of Iraq, and present information and perspectives too rarely visible in America. Said is unyielding in his call for truth and justice. He insists on truth about Israel's role as occupier and its treatment of the Palestinians. He pleads for new avenues of communication between progressive elements in Israel and Palestine. And he is equally forceful in his condemnation of Arab failures and the need for real leadership in the Arab world.

**Edward Said's Translocations** SAGE Publishing India

This collection of eleven essays re-evaluates Edward Said's definition of 'orientalism' widely misconstrued as being merely postcolonial and contestable. The volume emphasizes the need to move beyond the prejudice and stereotyping tied to the context of colonial exploitation. It challenges the assumption that oriental studies only served to segregate cultures and undermine the oriental peoples' capacity for self-formation. This book shows how cultures can generate studies of themselves on their own and that the impetus for such work was clearly noticeable at least in Indian cultural scholarship during the colonial period. The contributors bring to light the orientals' ordering of themselves and expose the fallacy that western imperialist discourse defined and described us. In the process, they draw upon Said's distinction between 'oriental studies' and 'orientalism'.

**Imperfect Strangers** Routledge

Contains analyses of literary texts written by, among others, Chinua Achebe, Samuel Beckett, James Joyce, Michael Ondaatje, George Orwell, Salman Rushdie and Edward Said.

Coming at the heels of September 11, Operation Iraqi Freedom has focused the limelight on the way in which the United States predicts and manages political change. The failure to find WMD

and more important, the continued violence in Iraq instead of the hoped for democracy, has engendered an acrimonious debate on the motives of the Bush administration and its uses or misuses of intelligence. The question of who got what right or wrong has been fought out along ideological, and partisan lines, with supporters claiming that, given what was known about Saddam Hussein, the decision to change his regime was justified and detractors arguing that a group of largely Jewish neoconservatives, acting on behalf of Israel, manipulated intelligence in order to trick the United States into an unnecessary and costly war. The book provides a systematic and objective analysis of the problems that faced American intelligence in deciphering the behavior of the highly secretive and confusing Iraq regime and its enigmatic leader.

**Follies of Power** Routledge

"Exhilarating . . . brave and forthright." —The New York Times Book Review "Perhaps the greatest single collection of thinking on the political, diplomatic, social, and cultural history of the past century." —Forbes We have entered an age of forgetting. Our world, we insist, is unprecedented, wholly new. The past has nothing to teach us. Drawing provocative connections between a dazzling range of subjects, from Jewish intellectuals and the challenge of evil in the recent European past to the interpretation of the Cold War and the displacement of history by heritage, the late historian Tony Judt takes us beyond what we think we know of the past to explain how we came to know it, showing how much of our history has been sacrificed in the triumph of myth—making over understanding and denial over memory. Reappraisals offers a much-needed road map back to the historical sense we urgently need. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

**After 9/11** Vintage

In a collection of intriguing essays on the work of Edward Said, internationally-recognized scholars pay homage to the late critic by addressing many aspects of his oeuvre, including his breakthrough *Orientalism*, the role of the intellectual, the Question of Palestine, and finally his dramatic memoir, *Out of Place*. This volume is a useful contribution for classroom use, as well as recreational reading for those interested in the work of this controversial thinker.

**The Iron Cage** Routledge

The Global Studies Directory identifies people and institutions who have been key in the field of Global Studies or made an impact on the formation of a global world.

**Reorienting Orientalism** Harvard University Press

This book brings together, explores and expands socio-spatial affect, emotion and psychoanalytic drives in tourism for the first time. Affect is to be found in visceral intensities and resonances that circulate around and shape encounters between and amongst tourists, local tourism representatives and places. When affect manifests, it can 'take shapes' in the form of emotions such

as fun, joy, fear, anger and the like. When it remains a visceral force of latent bodily responses, affect overlaps with drives as expounded in psychoanalysis. The aim of the title, therefore, is to explore how and in what ways affects, emotions and drives are felt and performed in tourism encounters in places of socio-political turmoil such as Jordan, Palestine/Israel, with a detour to Iraq. *Affective Tourism* is highly innovative as it offers a new way of theorising tourism encounters bringing together, critically examining and expanding three areas of scholarship: affective and emotional geographies, psychoanalytic geographies and dark tourism. It has relevance for tourism industries in places in the proximity of ongoing conflicts as it provides in-depth analyses of the interconnections between tourism, danger and conflict. Such understandings can lead to more socio-culturally and politically-sustainable approaches to planning, development and management of tourism. This ground breaking book will be of valuable reading for students and researchers from a number of fields such as tourism studies, geography, anthropology, sociology and Middle Eastern studies.

**Introduction to Geopolitics** Routledge

This is a readable and incisive analysis of American foreign policy and international politics since the end of the Cold War. It is organized around two key themes, the role of culture in international politics and the changing nature of American power. Richard Crockatt addresses such key issues as: the relationship between US power and the post-Cold War international system US relations with Europe and Islam the intensity of anti-American feeling after September 11th the rebirth of American nationalism the war in Iraq and its aftermath. After 9/11 is a much-needed balanced account of the most significant political questions of the twenty-first century

**Reappraisals** Routledge

As the situation in Israel/Palestine seems to become ever more intractable and protracted, the need for new ways of looking at recent developments and their historical roots is more pressing than ever. Bearing this in mind, Yasmeen Abu-Laban and Abigail B. Bakan discuss the historic and contemporary dynamics in Israel/Palestine, and their international reverberations, from the unique vantage point of 'race', racialization, racism and anti-racism. They therefore offer close analysis of the 'idea' of Israel and the 'absence' of Palestine by examining the concepts of race and identity in the region. With fresh coverage of themes relating to gender, Idigeneity, the environment, surveillance and the war on terror, Israel, Palestine and the Politics of Race will appeal to scholars in political science, sociology and Middle East studies.

**Israel, Palestine and the Politics of Race** Springer

The book discusses the dangers of the "unipolar view" of world politics, one in which the United States is overwhelmingly predominant and should act accordingly. The book notes the damage caused by this view in action - as in the Middle East and Europe. It assesses the real strengths and weaknesses of American power - "soft," military, economic, and moral. It contrasts the federal systems of "Old America" and "New Europe"

as models for governing today's increasingly plural system. It notes how friendly balancing from Europe is critical for maintaining America's own constitutional equilibrium.

**Paradoxical Citizenship** Univ of California Press

It is an unlikely story. Ramzi Hussein Aburedwan, a child from a Palestinian refugee camp, confronts an occupying army, gets an education, masters an instrument, dreams of something much bigger than himself, and then, through his charisma and persistence, inspires others to work with him to make that dream real. The dream: a school to transform the lives of thousands of children--as Ramzi's life was transformed--through music. Musicians from all over the world came to help. A violist left the London Symphony Orchestra, in part to work with Ramzi at his new school. Daniel Barenboim, the eminent Israeli conductor, invited Ramzi to join his West Eastern Divan Orchestra, which he founded with the late Palestinian intellectual, Edward Said. Since then the two have played together frequently. *Children of the Stone* chronicles Ramzi's journey--from stone thrower to music student to school founder--and shows how through his love of music he created something lasting and beautiful in a land torn by violence and war. This is a story about the power of music, but also about freedom and conflict, determination and vision. It's a vivid portrait of life amid checkpoints and military occupation, a growing movement of nonviolent resistance, the prospects of musical collaboration across the Israeli-Palestinian divide, and the potential of music to help children everywhere see new possibilities for their lives.

**The Two-State Delusion** Cornell University Press

If Iraq and the United States are to win the war in any meaningful and lasting sense, they must translate the Strategic Agreement they signed in November 2008 into a lasting and functional strategic partnership. In the process, the United States must put Iraq firmly in the lead, but sustain the kind of aid and advice that will help Iraq make further progress in political accommodation, the quality of governance, economic development, and security. The CSIS Burke Chair in Strategy conducted a detailed analysis of the current situation in Iraq, the challenges Iraq faces, and the actions the United States needs to take to help Iraq meet those challenges. Its report provides a detailed risk assessment of current and potential levels of violence in Iraq. It addresses the levels of political accommodation and stability and the problems Iraq still faces in the aftermath of the national election. It also addresses the opportunities and problems in developing Iraq's petroleum sector; investment and development issues in other sectors, the problems in the Iraqi budget forecasts, and progress in Iraqi reconstruction. It evaluates the need for continued economic aid and advice and describes U.S. options for extending such assistance. The concluding section examines progress in creating Iraqi military and police forces. It examines the role the United States can play in helping Iraq further develop such forces and analyzes what a strategic partnership, based on the Strategic Agreement, should mean.
