The GPS Man By: Kamel El Hassani Aebrey, an Iraqi farmer who grazed cattle, moves to America due to the chaos caused by the war in Iraq. He lost his bull and accidentally found himself immigrated to the United States. Back in the deserts of Iraq, he would use the sun, the moon, and the stars to direct him — now in America — he has come across the GPS and puts his destiny in the hands of this technology which he considers to be genius. He uses the GPS to not only direct him, but also to provide for his

family by working for Uber. This story takes you through the humorous trials and tribulations of an immigrant finding their way in America, all with the help of a GPS.

My China - Living inside the Dragon is a compelling memoir that details the author's fifteen years of living, working, and travelling in China at a pivotal time in the country's development. Readers will find this work to be as insightful as it is entertaining. Living in China away from large expatriate communities, both through business activities, in private life and supplemented by travel around much of the

country, the author was exposed to the wide-ranging variety of Chinese culture and its differing geographical influences. These included the ways and the lifestyle of the Chinese people, with those personal observations and opinions reflected in this book. This critique is widely varied in content from daily routines to a view on the more sophisticated aspects of society with all its complexities, seen through the eyes of a foreigner. Containing credible personal views

including extracts from detailed personal diary notes written during this extraordinary period of China's truly historic growth and evolution. This transformation period during the early part of this century (2002-2017) laid the foundations for its current wealth, successes, and a platform for its continual drive towards achieving its future ambitions.

Driving is a privilege and not a right. Drivers must drive responsibly and safely, obey traffic laws, and never drink and drive. Finally, make sure that you and your passengers are properly buckled up - it's the law! Today's vehicles are loaded with technology that was unheard of even a decade ago. Systems that warn when you are drifting from your lane, assist you in parallel parking, automatically brake in

emergency situations and provide 360 degrees of vision around the vehicle via a camera are becoming standard, even on moderately priced vehicles. As remarkable as these leaps in automotive technology are, the truth is that the most important safety feature in any vehicle remains you as the driver. Therefore, it is to your benefit to continue improving and expanding your knowledge of traffic laws and safe driving practices. Driving is a privilege. Once you have

been issued a driver's license, you have the responsibility to continually demonstrate the skill and knowledge to drive safely. Whether you have been behind the wheel for decades or are just starting to venture out, driving is a discipline that requires judgment, knowledge, physical and mental self-awareness, and practice. "What Every Driver Must Know" is an excellent resource for assisting you on this lifelong journey. [Houseways in Southern Oman](#) Springer Nature

This book is about two intended weddings. A Saudi seeking Jesus tells his story covering the years 1999 to 2002 and ends with a haircut as part of his Arabic prenuptial traditions. Osman observes his roommate's rehearsals for a very different wedding where the ritual haircut precedes martyrdom leading to carnal heavenly rewards. The hero is skeptical of this roommate's belief where sensuality is mixed with fiery warnings against anyone daring to leave

Islam. His San Diego based employer, "Uncle" Khaliil, a 1980's Afghan munitions dealer, does little to restrain his power over his 27 year old protégé, especially interfering with Osman's romance with Marie, his Mexicana sweetheart. San Diego provides the glamorous seaside locations where the homemade mosque and community college scenes take place but these balmy images are often interrupted by Tijuana border crises. Other borders are in Amman,

Jordan, where Osman lands on 9/11 while holding an illegal passport. He is further victimized by this disastrous terror attack on Manhattan during a Sinbad-the-Sailor flight to California where the rapturous Marie awaits him. From benign hocus pocus untruths to outright deceptions, this novel features a litany of human failings. However, for Muslims and Christians, the "testing" of the Prophet of God, Abraham, becomes a model for sacred trusts. The Bible

and Quran record a Father's offering of his Son upon an altar as a symbol of the similarity and the disparity of the two holy books. Several citations from the Biblical and Quranic texts touch upon some gritty issues like Osman's circumcision when he was 13 (Genesis 17:25, Quran 37:102); a delay based upon his mother's vow for pre-1967 Jerusalem. Marie's effervescent kiss will ultimately revive Osman from a death by drowning, during which he hears Jesus speaking,

prepping him for his wedding as a newly washed, hairless babe. *The Official DSA Theory Test for Car Drivers* John Benjamins Publishing Company Part reminiscence, part commentary, *Around the World in 80 Months* presents the author's 'take' on people and places in widely differing cultures during the period 2007-2014. Being based in three continents afforded opportunities to observe social and cultural realities in a variety of countries, while

catching up with family and friends enabled him and his wife to roam through a fourth. *Around the World in 80 Months* is a celebration of sharing the joys of retirement and un-retirement, of negotiating the unexpected and of finding common cause with others.

#### Pulling Strings ICBC

This is a book about the use of personal influence, protektzia, in Israel. All over the world, in both democratic and socialist societies, there exists some degree of

recognition of the rights of citizens to complain about unjust treatment in organizational encounters. While the goals and actual functioning of complaint-handling devices may vary, bureaucratic role relations are ideally governed by the principles of universalism, specificity, and affective neutrality. In fact, patterns of actual behavior frequently differ dramatically from this model, giving rise to practices from bribery and embezzlement to

nepotism, patronage, and what is referred to in the United States as “pulling strings.” In Israel, protektzia is widespread. This book is a major contribution to the systematic sociological study of this phenomenon. Drawing on the literature on the functioning of public administration around the world, Danet develops a theory about the conditions under which deviations from universalistic norms occur, distinguishing four patterns of organizational

culture. The theory is then tested in a case study of bureaucratic encounters in Israel.

FILL THE GAPS. Arabic for Nerds 1 will push you from the intermediate to

the advanced level. Gerald Drißner has been collecting interesting facts about Arabic grammar, vocabulary and expressions, hints and traps for almost ten years. Finally he has compiled them to a book: Arabic for Nerds. This book should fill a gap. There are plenty of books about Arabic for beginners, but it is difficult to find good material for intermediate students. This book is suitable for readers who have been studying Arabic for at least two years. Readers should

have a sound knowledge of vocabulary (around 3000 words) and know about tenses, verb moods and plurals. If a student wants to reach an advanced level, it is not about learning vocabulary lists - it is about understanding the fascinating core of Arabic. Arabic for Nerds doesn't teach vocabulary, nor are there exercises. This book explains how Arabic works and gives readers hints in using and understanding the language better. Since most of the Arabic words are given in translation,

the reader should be able to read this book without a dictionary. This is what Arabic for Nerds is all about. It is specifically intended for intermediate learners.

**Perspectives on Arabic Linguistics** Taylor & Francis

This book reconstructs Istanbul through the prism of Orhan Pamuk's fiction. It navigates the multiple selves and layers of Istanbul to present how the city has shaped the writings of Pamuk and has, in turn, been shaped by it. Through everyday

objects and architecture, it shows how Pamuk transforms the city into a living museum where different objects converse along with characters to present a rich tapestry across space and time. Further, the monograph explores the formation of communal and literary identity within and around nation-building narratives informed by capitalism and modernization. The book also examines how Pamuk uses the postmodern city to move beyond its postmodern confines, and utilizes the

theories and universes of Bakhtin, Benjamin, and Foucault to open up his fiction and radically challenge the idea of the novel. The volume will be of great interest to scholars and researchers of literature, literary theory, museum studies, architecture, and cultural studies, and especially appeal to readers of Orhan Pamuk. Parliamentary Debates (Hansard). Moon Travel This book explores the process of acquiring UK citizenship and investigates how the

naturalisation process is experienced, with an explicit focus on language practices. This ethnographically-informed study focuses on W, a Yemeni immigrant in the UK, during the final phase of the citizenship process. In this time, he encounters linguistic trials and tests involving the Life in the UK citizenship test, community life, ESOL (English for Speakers of Other Languages), adult education and the citizenship ceremony. The richness of linguistic data featured in this book

allows for a nuanced portrayal of the complexities of becoming a citizen. This is especially so in the context of the UK's assimilationist form of citizenship which is reflected in the introduction of a citizenship test within a broader socio-political climate. Becoming a Citizen offers a detailed analysis of the linguistic process of naturalisation in the the UK and is relevant to scholars working in sociolinguistics, language policy, migration studies

and ethnographic research.
