From local bike-sharing initiatives to overhauls of transport infrastructure, mobility is one of the most important areas in which modern cities are trying to

realize a more sustainable future. Yet even as politicians and planners look ahead, there remain critical insights to be gleaned from the history of urban mobility and the unsustainable practices that still impact our everyday lives. United by their pursuit of a “usable past,” the studies in this interdisciplinary collection consider the ecological, social, and economic aspects of urban mobility, showing how historical inquiry can make both conceptual and practical contributions to the projects of

sustainability and urban renewal.

The Only Woman in the Room, Quotes and Wisdom for a Fearless Life. Former advertising and public relations executive, Annette Merritt Cummings, has written a memoir about a career where she was often the only woman and only black person in the room. This book features quotes, wisdom and inspirational hymns and poems she collected over the years that motivated and encouraged her throughout her 30 year career from the bottom to the top; from unwed mother to a senior executive and diversity consultant. During the course of her career she was featured in magazine and newspaper articles, facilitated executive briefings, gave speeches, and conducted

diversity training sessions for national organizations and Fortune 500 corporations.
