A celebration of the magical bonds that unite children! When her two big sisters embark on an adventure to explore a mysterious island, the youngest one doesn't want to be left behind—even if she does need her sisters' help to read the sign that says "Only Reality Can Kill a Dragon". Along the way, the sisters discover gorilla houses, popcorn falling from the sky like snow, and yes, a dragon that only reality can kill. What shines through from this funny story's gut-wrenchingly scary beginning ("There was a terrible plane crash!") to its sweet and satisfying ending is LINIERS's admiration for the imaginative powers of childhood.

Popular Science Macanudo

One of the 20th century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía

family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an accounting of the history of the human race.
