Joe DiMaggio was, at every turn, one man we could look at who made us feel good. In the hard-knuckled thirties, he was the immigrant boy who made it big—and spurred the New York Yankees to a new era of dynasty. He was Broadway Joe, the icon of elegance, the man who wooed and won Marilyn Monroe—the most beautiful girl America could dream up. Joe DiMaggio was a mirror of our best self. And he was also the loneliest hero we ever had. In this groundbreaking biography, Pulitzer Prize-winning journalist Richard Ben Cramer presents a shocking portrait of a complicated, enigmatic life. The story that DiMaggio never wanted told, tells of his grace—and greed; his dignity, pride—and hidden shame. It is a story that sweeps through the twentieth century, bringing to light not just America's national game, but the birth (and the price) of modern national celebrity.

Controversial evangelical Bible scholar, popular blogger and podcast host of The Bible for Normal People, and author of *The Bible Tells Me So* and *The Sin of Certainty* explains that the Bible is not an instruction manual or rule book but a powerful learning tool that nurtures our spiritual growth by refusing to provide us with easy answers but instead forces us to acquire wisdom. For many Christians, the Bible is a how-to manual filled with literal truths about belief that must be strictly followed. But the Bible is not static, Peter Enns argues. It does not hold easy answers to the perplexing questions and issues that confront us in our daily lives. Rather, the Bible is a dynamic instrument for study that not only offers an abundance of insights but provokes us to find our own answers to spiritual questions, cultivating God's wisdom within us. "The Bible becomes a confusing mess when we expect it to function as a rulebook for faith. But when we allow the Bible to determine our expectations, we see that Wisdom, not answers, is the Bible's true subject matter," writes Enns. This distinction, he points out, is important because when we come to the Bible expecting it to be a textbook intended by God to give us unwavering certainty about our faith, we are actually creating problems for ourselves. The Bible, in other words, really isn't the problem; having the wrong expectation is what interferes with our reading. Rather than considering the Bible as an ancient book weighed down with problems, flaws, and contradictions that must be defended by modern readers, Enns offers a vision of the holy scriptures as an inspired and empowering resource to help us better understand how to live as a person of faith today. How the Bible Actually Works makes clear that there is no one right way to read the Bible. Moving us beyond the damaging idea that "being right" is the most important measure of faith, Enns's freeing approach to Bible study helps us to instead focus on pursuing enlightenment and building our relationship with God—which is exactly what the Bible was designed to do.

Verbal Judo is the martial art of the mind and mouth that can show you how to be better prepared in every verbal encounter. Listen and speak more effectively, engage people through empathy (the most powerful word in the English language), avoid the most common conversational disasters, and use proven strategies that allow you to successfully communicate your point of view and take the upper hand in most disputes. Verbal Judo offers a creative look at conflict that will help you defuse confrontations and generate cooperation from your spouse, your boss, and even your teenager. As the author says, "when you react, the event controls you. When you respond, you're in control." This new edition features a fresh new cover and a foreword demonstrating the legacy of Verbal Judo founder and author George Thompson, as well as a never-before-published final chapter presenting Thompson's "Five Universal Truths" of human interaction.

On her last day of high school, Cassandra Devlin walked out of exams and into a forest. Surrounded by the wrong sort of trees, and animals never featured in any nature documentary, Cass is only sure of one thing: alone, she will be lucky to survive. The sprawl of abandoned blockish buildings Cass discovers offers her only more puzzles. Where are the people? What is the intoxicating mist which drifts off the buildings in the moonlight? And why does she feel like she's being watched? Increasingly unnerved, Cass is overjoyed at the arrival of the formidable Setari. Whisked to a world as technologically advanced as the first was primitive, where nanotech computers are grown inside people's skulls, and few have any interest in venturing outside the enormous whitestone cities, Cass finds herself processed as a 'stray', a refugee displaced by the gates torn between worlds. Struggling with an unfamiliar language and culture, she must adapt to virtual classrooms, friends who can teleport, and the ingrained attitude that strays are backward and slow. Can Cass ever find her way home? And after the people of her new world discover her unexpected value, will they be willing to let her leave?
