From the international

bestselling author of *Awareness*, a pocket-sized guide that will bring you to new levels of spiritual awareness. *The Way To Love* contains the final flowering of Anthony de Mello's thought, and in it he grapples with the ultimate question of love. In thirty-one meditations, he implores his readers with his usual pithiness to break through illusion, the great obstacle to love. "Love springs from awareness," de Mello insists, saying that it is only when we see others as they are that we can

begin to really love. But not only must we seek to see others with clarity, we must examine ourselves without misconception. The task, however, is not easy. "The most painful act," de Mello says, "is the act of seeing. But in that act of seeing that love is born." Anthony De Mello was the director of the Sadhana Institute of Pastoral Counseling in Poona, India, and authored several books. *The Way To Love* is his last.

“[A] landmark book . . . Solnit illustrates how the uprisings that begin on the streets can upend the status quo and topple authoritarian regimes” (Vice). A book as powerful and influential as Rebecca Solnit’s *Men Explain Things to Me*, her *Hope in the Dark* was written to counter the despair of activists at a moment when they were focused on their losses and had turned their back to the

victories behind them—and the unimaginable changes soon to come. In it, she makes a radical case for hope as a commitment to act in a world whose future remains uncertain and unknowable. Drawing on her decades of activism and a wide reading of environmental, cultural, and political history, Solnit argues that radicals have a long, neglected history of transformative victories, that the positive consequences of our acts are not always

immediately seen, directly knowable, or even measurable, and that pessimism and despair rest on an unwarranted confidence about what is going to happen next. Now, with a moving new introduction explaining how the book came about and a new afterword that helps teach us how to hope and act in our unnerving world, she brings a new illumination to the darkness of our times in an unforgettable new edition of this classic book. “One of the best books of the 21st

A book of poems to help those who have lost a loved one. Written from her heart, the author expresses her feelings after losing her husband of thirty five years. *The Magic Mindset* Simon and Schuster
Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of*

Human Nature. In the book that People magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach

the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
