From Caldecott honoree LeUyen Pham, *Outside, Inside* is a moving picture book that captures the unforgettable moment during the pandemic when people all over the world came together. It celebrates the essential workers, frontline workers, and communities that worked with each other to protect our loved ones. Something strange happened on an unremarkable day just before the season changed. Everybody who was outside went inside. Outside, it was quieter, wilder, and different. Inside, we laughed, we cried, and we grew. We remembered to protect the ones we love

and love the ones who protect us. While the world changed outside, we became stronger on the inside and believed that someday soon spring would come again. Theodore Roosevelt's heart was as big as the great outdoors he loved. A sickly, undersized boy, he grew into a physically fit, energetic man whose courage knew no bounds. Roosevelt hailed from the top of American society, but wealth could not shield him from human tragedy. As leader of a young, vigorous nation, he steered a middle course between the power brokers of big business and the needs of ordinary working people. A keen student of nature, Roosevelt would protect millions of acres for posterity. He was a writer, ranchman, politician, soldier, explorer, family man, and America's 26th president, the youngest person to ever hold the office. Theodore Roosevelt for Kids brings to life this fascinating man, an American giant whose flaws were there for all the world to see. Twenty-one hands-on activities offer a useful glimpse at Roosevelt's work and times. Readers will create a Native American toy, explore the effects of erosion, go on a modern big game hunt with a camera, and make felted teddy bears. The text includes a time line, online resources, and reading list for further study. And through it all, readers will appreciate how one man lived a &"Bully!" life and made the word his very own.

A savvy and validating guide to what might be in store for growing numbers of childfree and childless adults worldwide, *Do You Have Kids? Life When the Answer is No* takes on topics from the shifting meaning of family to what we leave behind when we die. Weaving together wisdom from women ages twenty-four to ninety-one with both her own story and a growing body of research, Kate brings to light alternate routes to lives of meaning, connection, and joy. Today about one in five American women will never have children, whether by choice or by destiny. Yet few women talk much about what not having kids means to their lives and identities. Not that they don't want to; there just aren't obvious catalysts for such open conversations. In fact, social taboos preclude exploration of the topic—and since our family-centric culture doesn't know quite what to do with non-parents, there's potential for childless and childfree women to be sidelined, ignored, or drowned out. Yet there's widespread, pent-up demand for understanding and validating this perfectly normal way of being. In this straight-shooting, exhaustively researched book, women without kids talk candidly about the ways in which their lives differ from societal norms and expectations—the good, the bad, and the unexpected.

Leonardo da Vinci for Kids Thomas Nelson

The marriage of art and science is celebrated in this beautifully illustrated four-color biography and activity book. A blueprint for how parents can stop worrying about their children's future and start helping them prepare for it, from the cofounder and CEO of one of America's most innovative public-school networks "A treasure trove of deeply practical wisdom that accords with everything I know about how children thrive."—Angela Duckworth, New York Times bestselling author of *Grit* In 2003, Diane Tavenner cofounded the first school in what would soon become one of America's most innovative public-school networks. Summit Public Schools has since won national recognition for its exceptional outcomes: Ninety-nine percent of students are accepted to a four-year college, and they graduate from college at twice the national average. But in a radical departure from the environments created by the college admissions arms race, Summit students aren't focused on competing with their classmates for rankings or test scores. Instead, students spend their days solving real-world problems and developing the skills of self-direction, collaboration, and reflection, all of which prepare them to succeed in college, thrive in today's workplace, and lead a secure and fulfilled life. Through personal stories and hard-earned lessons from Summit's exceptional team of educators and diverse students, Tavenner shares the learning philosophies underlying the Summit model and offers a blueprint for any parent who wants to stop worrying about their children's future—and start helping them prepare for it. At a time when many students are struggling to regain educational and developmental ground lost to the disruptions of the pandemic, Prepared is more urgent and necessary than ever.

It's a Wonderful Life for Kids! Chicago Review Press

The death of a child is a special sorrow. No matter the circumstances, a child's death is a life-altering experience. Except for the child who dies suddenly and without forewarning, physicians, nurses, and other medical personnel usually play a central role in the lives of children who die and their families. At best, these professionals will exemplify Æmedicine with a heart.Æ At worst, families's encounters with the health care system

will leave them with enduring painful memories, anger, and regrets. When *Children Die* examines what we know about the needs of these children and their families, the extent to which such needs are"and are not"being met, and what can be done to provide more competent, compassionate, and consistent care. The book offers recommendations for involving child patients in treatment decisions, communicating with parents, strengthening the organization and delivery of services, developing support programs for bereaved families, improving public and private insurance, training health professionals, and more. It argues that taking these steps will improve the care of children who survive as well as those who do not"and will likewise help all families who suffer with their seriously ill or injured child. Featuring illustrative case histories, the book discusses patterns of childhood death and explores the basic elements of physical, emotional, spiritual, and practical care for children and families experiencing a child's life-threatening illness or injury.

It's a Kid's Life Penguin

This book analyzes the impact of the U.S. Supreme Court rulings deeming juvenile life without parole (LWOP) sentences to be cruel and unusual punishment. These Court decisions brought about controversy and resistance in the criminal justice field, while at the same time providing hope for those 2,300 people who never thought they had a chance to experience life as an adult outside prison. By looking in depth at the lives of some of the individuals serving life terms, and understanding both the prosecutors who oppose review and resentencing of juvenile lifers and those who are sincerely following the Supreme Court's guidelines, this book provides a comprehensive understanding of the issues – as well as the people – involved in the sentencing (and potential resentencing) of juveniles to life without the possibility of parole. The authors provide unique, perceptive and straightforward profiles on some of the prisoners who were ultimately sentenced to LWOP after being involved in criminal offenses committed before their 18th birthdays. The book poignantly features the experiences of young people who did not commit a murder yet were still sentenced to life terms, but also delves into the perspectives of the families of victims of juvenile offenders, prosecutors on both sides of the issue, psychologists who have interviewed many of the juvenile lifers and advocates for change in the way juveniles are treated by the criminal justice system. The decisions in *Miller v. Alabama* and *Montgomery v. Louisiana* clearly demonstrated that the Court's view of juveniles evolved over decades to reflect advances in our understanding of the unique characteristics of youth and their involvement in juvenile crimes. This book takes the position that the sentence of life without the possibility of parole for youth is wasteful of both human lives and scarce public resources. The authors write about the human concerns on both sides of the question, and, ultimately, allow readers to make their own decisions about how society should best handle juvenile offenders. This engaging ethnographic treatment will appeal to students and scholars of criminology, corrections, juvenile justice, and delinquency; practitioners working in social policy; and all those interested in a criminal justice system capable of positive outcomes for involved youth.

Do You Have Kids? Shaw Books

Ask any parent what they want most for their child, and most likely you'll hear the same answer again and again: to see their children grow up into happy, healthy adults whose lives count for something. But ask those same parents what they're doing to equip their children for such a life and you'll get embarrassed silence. Finally, parents can find help for this crucial task in a book that is encouraging, easy to grasp, and filled with great practical suggestions. In *Launching Your Kids for Life*, Bob and Cheryl Reccord liken the job of equipping your children for success in life to the procedure that NASA undertakes to prepare for a shuttle launch. The Reccords, along with their friends Dr. Tommy Holloway, past director of the NASA Space Program and three-time shuttle astronaut David Leetsma point out that just as the shuttle must break through the Earth's gravitational force into space, so too must children break free into adulthood. But our children can't do it on their own. They need our help. They need us to equip them, to prepare them, to help them discover their life's mission, and to celebrate the milestones along the way. If we learn how to do this, then we can be sure that they can fly anywhere their wings will take them.

Few Americans have had as much impact on this nation as Frederick Douglass. Born on a plantation, he later escaped slavery and helped others to freedom via the Underground Railroad. In time he became a bestselling author, an outspoken newspaper editor, a brilliant orator, a tireless abolitionist, and a brave civil rights leader. He was famous on both sides of the Atlantic in the years leading up to the Civil War, and when war broke out, Abraham Lincoln invited him to the White House for counsel and advice. Frederick Douglass for Kids follows the footsteps of this American hero, from his birth into slavery to his becoming a friend and confidant of presidents and the leading African American of his day. And to better appreciate

Frederick Douglass and his times, readers will form a debating club, cook a meal similar to the one Douglass shared with John Brown, make a civil war haversack, participate in a microlending program, and more. This valuable resource also includes a time line of significant events, a list of historic sites to visit or explore online, and Web resources for further study. Nancy I. Sanders is the author of many books, including *America's Black Founders* and *A Kid's Guide to African American History*. She lives in Chino, California.
