HOWARD MICAELA

Mindfield Chronicle Books (CA)

A semiautobiographical coming-of-age story, framed by the harrowing 1975 Circeo massacre Edoardo Albinati's *The Catholic School*, the winner of Italy's most prestigious award, *The Strega Prize*, is a powerful investigation of the heart and soul of contemporary Italy. Three well-off young men—former students at Rome's

prestigious all-boys Catholic high school San Leone Magno—brutally tortured, raped, and murdered two young women in 1975. The event, which came to be known as the Circeo massacre, shocked and captivated the country, exposing the violence and dark underbelly of the upper middle class at a moment when the traditional structures of family and religion were seen as under threat. It is this environment, the halls of San Leone Magno in the late 1960s and the 1970s, that Edoardo Albinati takes as his subject. His experience at the school, reflections

on his adolescence, and thoughts on the forces that produced contemporary Italy are painstakingly and thoughtfully rendered, producing a remarkable blend of memoir, coming-of-age novel, and true-crime story. Along with indelible portraits of his teachers and fellow classmates—the charming Arbus, the literature teacher Cosmos, and his only Fascist friend, Max—Albinati also gives us his nuanced reflections on the legacy of abuse, the Italian bourgeoisie, and the relationship between sex, violence, and masculinity.

In this book, the first edition of which was published in 1971 by Oxford University Press, Ihab Hassan takes Orphic dismemberment and regeneration as his metaphor for a radical crisis in art and language, culture and consciousness, which prefigures postmodern literature. The modern Orpheus, he writes, "sings on a lyre without strings." Thus, his sensitive critique traces a hypothetical line from Sade through four modern authors-- Hemingway, Kafka, Genet, and Beckett--to a literature still to come. But the line also breaks into two Interludes, one concerning 'Pataphysics, Dada, and Surrealism, and the other concerning Existentialism and Aliterature. Combining literary history, brief biography, and critical analysis, Hassan surrounds these authors with a complement of avant-garde writers whose works also foreshadow the postmodern temper. These include Jarry, Apollinaire, Tzara, Breton, Sartre, Camus, Nathalie Sarraute, Robbe-Grillet, and in America, Cage, Salinger, Ginsberg, Barth, and Burroughs. Hassan takes account also of related contemporary developments in art, music, and philosophy, and of many works

of literary theory and criticism. For this new edition, Hassan has added a new preface and postface on the developing character of postmodernism, a concept which has gained currency since the first edition of this work, and which he himself has done much to theorize.

From the author of the critically acclaimed, award-winning bestseller *Ishmael* and its sequel, *My Ishmael*, comes a powerful novel with one of the most profound spiritual testaments of our time "A

compelling 'humantale' that will unglue, stun, shock, and rearrange everything you've learned and assume about Western civilization and our future."—Paul Hawken, author of *The Ecology of Commerce* Father Jared Osborne has received an extraordinary assignment from his superiors: Investigate an itinerant preacher stirring up deep trouble in central Europe. His followers call him B, but his enemies say he's something else: the Antichrist. However, the man Osborne tracks across a landscape of bars, cabarets, and seedy meeting halls is no blasphemous monster—though an earlier era would undoubtedly have rushed him to the burning stake. For B claims to be enunciating a gospel written not on any stone or parchment but in our very genes, opening up a spiritual direction for humanity that would have been unimaginable to any of the prophets or saviors of traditional religion. Pressed by his superiors for a judgement, Osborne is driven to penetrate B's inner circle, where he soon finds himself an anguished collaborator in the dismantling of his own religious foundations. More than a masterful novel of adventure and

suspense, *The Story of B* is a rich source of compelling ideas from an author who challenges us to rethink our most cherished beliefs. Explore Daniel Quinn's spiritual Ishmael trilogy: *ISHMAEL* • *MY ISHMAEL* • *THE STORY OF B*

Career Guidance A Handbook for Policy Makers U of Minnesota Press

Trauma has assumed a prominent role in contemporary medicine as an event that can significantly influence clinical variables such as morbidity, functional deficits and consequential disability, and mortality. Trauma is the principal cause of death in the population below 40 years of age in industrialized countries. Therefore, there is great interest in studying traumatic events from both the clinical and epidemiological viewpoints. The importance of trauma is exemplified by the fact that in many countries the trauma patient is first treated in specialized "trauma centers", in which the diagnostic and treatment processes are facilitated by the 24-hour presence of personnel having interdisciplinary competencies. Trauma in this context consists of any acute, often unexpected, condition. Many of the medical difficulties associated with trauma

occur in a relatively brief period that spans from the first call for help to the initiation of first aid measures. A correct approach depends on the availability of experienced personnel. The first measures of aid must guarantee, above all, the patient's survival. The most critical, initial phases of care to trauma patients are represented by the triad: first aid, triage, and transport. Specific morbidity indices, whether anatomical, functional or mixed, are indispensable elements for monitoring a patient's clinical evolution. The immediate availability of "essential" drugs is imperative to confront the clinical situations that often present in the acute post-traumatic phase.

Esci dal tunnel. Da un lutto a una malattia, da un fallimento a una separazione: come affrontare e superare un trauma OECD Publishing

Originally written for the stage, "We, the Women of Tehran" illustrates from a female standpoint the origins and contradictions of the Iranian capital, and the rights of religious minorities and

women. It showcases women who have played a leading role in various disciplines and sports but who all too often have simply become an element in the regime's propaganda. The volume presents a lively narrative with verses from the great Persian poets and a hefty dose of irony: as a way to laugh about complex issues and dismantle misleading stereotypes.

You'll See It When You Believe It Penguin UK

The present volume is the first study in the English language to focus specifically on Italian crime fiction, weaving together a historical perspective and a thematic approach, with a particular focus on the representation of space, especially city space, gender, and the tradition of *impegno*, the social and political engagement which characterised the Italian cultural and literary scene in the postwar period. The 8 chapters in this volume explore the distinctive features of the Italian tradition from the 1930s to the present, by focusing on a wide range of

detective and crime novels by selected Italian writers, some of whom have an established international reputation, such as C. E. Gadda, L. Sciascia and U. Eco, whilst others may be relatively unknown, such as the new generation of crime writers of the Bologna school and Italian women crime writers. Each chapter examines a specific period, movement or group of writers, as well as engaging with broader debates over the contribution crime fiction makes more generally to contemporary Italian and European culture. The editor and contributors of this volume argue strongly in favour of reinstating crime fiction within the canon of Italian modern literature by presenting this once marginalised literary genre as a body of works which, when viewed without the artificial distinction between high and popular literature, shows a remarkable insight into Italy's postwar history, tracking its societal and political troubles and changes as well as often also engaging with metaphorical and philosophical notions of right or wrong, evil, redemption, and the search of the self.
