Kenny Werner is an accomplished pianist who began to perform at age 4 and by age 11 had appeared on television. While at the Manhattan School of Music, he became restless with his musical direction and began to explore jazz as new means of creativity and expression. Along his journey, he was inspired by the masters of the craft to rethink not only the technical aspects of creativity, but also the spiritual aspects. Effortless Mastery is not only an account of that journey, but also an insightful guide for all those wishing to remove their own barriers to creativity in life and the arts. While Mr. Werner happens to be a musician, the concepts presented here are applicable to every profession, aspiration, or lifestyle where there is a need for free-flowing effortless thinking.

[The New Real Book](#) Hal Leonard Corporation

Jazz in Socialist Hà Nội: Improvisations between Worlds examines the germination and growth of jazz under communist rule—perceived as the "music of the enemy" and "ideologically decadent"—in the Vietnamese capital of Hà Nội. After disappearing from the scene in 1954 following the end of the First Indochina War, jazz reemerged in the public sphere decades later at the end of the Cold War. Since then, Hà Nội has established itself as a vital and vibrant jazz center, complete with a full jazz program in the national conservatoire. Featuring interviews with principal players involved in cultivating the scene from past to present, this book presents the sociocultural encounters between musicians and the larger powers enmeshed in the broader political economy, detailing jazz's journey to garner respect comparable to classical music as an art form possessing high artistic value. Ethnographical sketches explore how Vietnamese musicians learn and play jazz while sustaining and nurturing the scene, providing insight as to how jazz managed to grow in such an environment. Jazz in Socialist Hà Nội sheds light on those underlying caveats that allow Vietnamese jazz musicians to navigate the middle grounds between "worlds"—between music and politics—not as an act of resistance, but as realisation of artistic expression.
