*Teaching American English Pronunciation -  
Oxford Handbooks for Language Teachers*  
Waveland Press  
The Routledge Handbook of Contemporary  
English Pronunciation provides a  
comprehensive survey of this field  
covering both theoretical and practical  
perspectives on pronunciation. In 35

chapters contributed by leading scholars  
from around the world, this Handbook  
examines: linguistic and historical  
background of sound systems and  
theoretical issues linked to sound changes;  
pronunciation acquisition and factors  
related to speech production;  
pronunciation research and applications to  
second language pronunciation; the link  
between pronunciation and other  
language skills including perception and  
other socio-cultural factors; pronunciation  
and its relation to World Englishes. The

Routledge Handbook of Contemporary  
English Pronunciation will be essential  
reading for anyone with an interest in  
pronunciation.

**and Learn Over 500 Commonly Mispronounced Words** Cambridge University Press

La relació entre llengua i Internet es posa de manifest en aquesta obra, que fa èmfasi en la manera com Internet contribueix al desenvolupament d'aspectes pràctics com ara la recerca terminològica, l'ensenyament fent servir materials curriculars en xarxa...

*Better English Pronunciation 2/E (Clpe): Book Only* McGraw-Hill Education

The Handbook of English Pronunciation presents a comprehensive exploration of English pronunciation with essential topics for applied linguistics researchers and teachers, including language acquisition, varieties of English, historical perspectives, accent's changing role, and connections to discourse, technology, and pedagogy. Provides thorough descriptions of all elements of English pronunciation Features contributions from a global list of authors, reflecting the finest scholarship available Explores a careful balance of issues and topics important to both researchers and teachers Provides a historical understanding of the importance of pronunciation and examines some of

the major ways English is pronounced today throughout the world Considers practical concerns about how research and practice interact in teaching pronunciation in the classroom

**It's No Good Unless You're Understood - Complete Program**

Universitat Jaume I

This is the second edition of a highly successful and widely-used text on pronunciation. It provides a systematic and thorough introduction to the pronunciation of English to help intermediate and more advanced students to improve their production of the spoken language. The particular difficulties of the speakers of certain other languages are noted, including Hindi and Arabic, and remedial exercises provided.

**A Course Book** Рипол Классик

A systematic and thorough introduction to the pronunciation of English for use by intermediate and more advanced students.

*Perfecting Your English Pronunciation* Cambridge University Press

A new edition of our best-selling pronunciation title, now in full colour and with a new section on understanding fast,

authentic speech.

**Pronunciation Pairs Student's Book with Audio CD** Manchester University Press

Problema in pronunciation. How the speech organs work in English. The consonants of english. The vowels of english.

Internet in languages for specific purposes and foreign language teaching McGraw-Hill Education

This second edition updates a course which has proven to be a perfect fit for classes the world over. Engaging content and a strong focus on grammar and vocabulary combine to make this course a hit with both teachers and students. Popular course features have been refreshed with new content, including the imaginative reading and listening topics, 'Culture in Mind', and 'Everyday English' sections. New for the second edition is a DVD-ROM with the Level 1 Student's Book containing games, extra exercises and videos featuring the photostories' characters as well as a 'Videoke' record-yourself function. There is a full 'Vocabulary bank' at the back of the book which expands upon lexical sets learned in

the units.

*Pronunciation Contrasts in English* Oxford University Press

Right from its formal introduction in India in 1835, through Thomas B. Macaulay's Minute, English has been intrinsically linked with the employment prospects of Indians. During their regime, the British promoted English education to fulfil the requirement of English-knowing Indians for administrative purposes. Owing to globalization, the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India, English education was a passport to government jobs, while in the twenty-first century, proficiency in English is essential for private sector jobs. This book examines the development of curricula in English in Indian universities vis-a-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts (BA). It also reflects on how globalization has strengthened the connection between English and employment.

Since its first publication in 1962, Gimson's Pronunciation of English has been the essential reference book for anyone studying or teaching the pronunciation of English. This eighth edition has been updated to describe General British (GB) as the principal accent, rather than RP, and the accompanying transcriptions have been brought into line with recent changes in pronunciation. This latest edition also includes completely rewritten chapters on the history of the language and the emergence of a standard, alongside a justification for the change from RP to GB. A further bonus to this important text is its extensive and attractive new Companion Website ([www.routledge.com/cw/cruttenden](http://www.routledge.com/cw/cruttenden)), which now includes moment-by-moment commentaries on videos showing the articulation of all GB consonants and vowels in spoken phrases, as well as cross-referencing between the book and these videos. The Companion Website also includes new recordings of Old English, Middle English, and Early Modern English,

and features links to recordings of recent and current GB with comments and transcriptions. Comprehensive yet accessible, Gimson's Pronunciation of English remains the indispensable reference book for anyone with an interest in English phonetics.

*Pronouncing American English* Cambridge University Press

Eliminate your accent for complete confidence in spoken English Accent reduction coach Susan Cameron has developed Perfecting Your English Pronunciation as a complete program to ensure that you minimize your native accent. Her proven method includes: ● a course book that explains exactly how to form the difficult sounds of English and teaches you correct tongue placement. Exercises make this more comfortable and natural for you. ● videos that features actual students executing correct mouth sounds. Through Cameron's innovative use of hand movements to demonstrate tongue position, you too will be able to find the precise pronunciation. ● audio recordings that feature exercises and correct pronunciation for ear training. The difficult sounds of English consonants and

vowels are spoken first in individual words, then phrases, and finally in complete sentences. The second edition of *Perfecting Your English Pronunciation* makes all videos and almost 12 hours of audio conveniently available through streaming via mobile app and online. This allows easy access to hundreds of model pronunciations for study and practice. With this unique and proven program, you'll learn to speak and present in English with confidence and fluency so that your ideas and talent – and not your accent – are in the spotlight.

### **The Handbook of English**

**Pronunciation** Cambridge University Press

In this vibrant second edition, the authors have drawn from their own multiple years of teaching and from the knowledge and ideas of 50 linguists and ESL teachers who specialize in particular languages. New to this edition is Part I, an entire section on English spelling as a morphophonemic system. Here, Nilsen and Nilsen clearly explain concepts and patterns of English spelling, pronunciation, and meaning to ease the process of learning English for non-native students as well as their

teachers. In addition, the authors provide sample activities that creatively and effectively engage students in grasping a particular concept, and include illustrative examples that show English is a systemic language. In Part II, the authors provide extensive lists of both vowel and consonant contrasts, each with phonetic diagrams and descriptions, minimal pairs (both isolated and in sentences), and specific languages for which the contrast may be problematic. These valuable examples help students hear and produce pronunciation differences that are important in English and bring their pronunciation closer to that of native English speakers. Both prospective and practicing teachers will appreciate the flexibility and freedom afforded by these well-designed materials.

*Clear English Pronunciation* Routledge  
*Australian English Pronunciation and Transcription* is the first textbook to clearly describe Australian English speech patterns. Now in its second edition, this ground-breaking work addresses speech production characteristics and provides detailed instruction in both phonetic and phonemic transcription of the dialect. Each

chapter features practical exercises to allow readers to develop skills and test their knowledge as they progress through the text. These exercises are complemented by an extensive companion website, which contains valuable explanatory materials, audio examples and accompanying activities for students. A new assessment bank includes exercises of varying difficulty, allowing lecturers to build unique assessment tasks tailored to their students' needs. Drawing on their extensive experience as teachers and researchers in phonetics and phonology, Felicity Cox and new author Janet Fletcher have crafted a comprehensive resource that remains essential reading for students, teachers and practitioners of linguistics, speech pathology and language education.

### A Practical Guide for English Language Teachers Cambridge University Press

Presents dialogues and lessons for advanced ESL learners, focusing on the most difficult pronunciation errors

*Test your English Vocabulary in Use*

*Upper-Intermediate* Cambridge University Press

"This course offers current and prospective

teachers of English a comprehensive treatment of pronunciation pedagogy, drawing on both current theory and practice. The text provides: - an overview of teaching issues from the perspective of different methodologies and second language acquisition research - innovative teaching techniques - a thorough grounding in the sound system of North American English - insight into how this sound system intersects with spelling, morphology, listening, and discourse - diagnostic tools and assessment measures - suggestions for syllabus design. Discussion questions and exercises encourage teachers to draw on their personal language learning/teaching experience as they assimilate the contents of each chapter. A training cassette offers practice in assessing learners' pronunciation"--Publishers's website.

**Modern German Pronunciation** John Benjamins Publishing Company  
David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language

ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Better English Pronunciation Cassettes (2)  
Cambridge University Press

Provides a clear, thorough description of the sound system of English Includes practical ideas for overcoming common pronunciation problems Looks at the specific problems that speakers of fifteen different languages have when speaking English Describes a number of classroom techniques to help improve pupils' pronunciation written by leading classroom practitioners Suitable for both trainee ESL teachers on Master's TESOL courses and for new and experienced practising teachers
