Of all the people documented by the Foxfire students since 1966, none has been more appealing to readers than Arie Carpenter. For all those who have read and cherished the Foxfire books, here is a loving portrait of a fondly remembered friend. This book is not just about Aunt Arie; it is Aunt Arie. In her own words, she

discusses everything from planting, harvesting, and cooking to her thoughts about religion and her feelings about living alone. Also included are testimonials from many who knew her and a wealth of photographs.

How to Make it Big as a Consultant Geiger
The grisly legend of a haunted inn where murder most foul and tragic took place. A chilling apparition, viewed in a mirror, that ultimately saves the life of the man who saw it. Following in the wake of the spine-tingling Scary Stories for Campfires and the hair-raising Scary Stories for

Halloween comes a collection of deliciously terrifying and uncanny tales that make sleepovers more exciting than ever. Adventurous kids with a taste for fear will enjoy huddling together in the darkened room and hearing about "Strangers Who Foretold Death." They'll listen wide-eyed to "Voices of the Dead." And youngsters will never forget the legend of "Blackbeard the Pirate." Sweet dreams, sleepover guests!

Ron Edwards was born in Australia in 1930 and brought up in the country where small farmers still plowed with horses and harvested their half acres with sickles and scythes, and larger properties relied on the annual visit of the steam-driven threshing machines. By the 1940s all this had vanished, and Edwards had realized that the country's traditional crafts also were disappearing. He began making drawings and notes of them and published these materials in his native country. *How to Make Whips* is the American edition of his ninth book. The first section gives instructions for a basic eight-strand whip; the second deals with the making of fine kangaroo hide whips. Other chapters explain the making of bullwhips, snake whips, and whips made from precut lace. Also included are instructions on plaiting names in whips and using plaiting designs for whip handles.

The Encyclopedia of Rawhide and Leather Braiding is the definitive work on the subject and results from the late Bruce Grants many years of interest and

experience as a braider and writer on the subject. It combines most of the material published in *Leather Braiding* and *How to Make Cowboy Horse Gear* with a mass of completely new material. The books more than 350 illustrations are arranged so that the step-by-step instructions face the picture being described, making it very easy to follow. While the book is primarily for those interested in leathercraft, in nearly all cases the methods of braiding are applicable to many other materials, such as silk, cotton, plastic, catgut, or horsehair. Braidwork takes many forms, and its applications are practical as well as decorative. The combination of beauty and utility lends itself to an array of items personal gear or clothing, working or show gear for a horse, decoration of plain, carved, or tooled leather work. Truly a book to be used as well as read, *Encyclopedia of Rawhide and Leather Braiding* provides all the information needed for this satisfying pastime.

From camping to rock climbing, your safety depends on choosing and tying knots correctly. With this handy guide, you

can tackle every task from DIY to tying fishing or sailing lines with complete confidence. *Knots Step by Step* presents the 100 most useful knots for sailing, fishing, camping, climbing, and decorative uses. It explains how to tie highwayman hitches, monkey fists, bowlines, and many other key knots. Its clear uncluttered images show you exactly what to do, taking you from the easiest overhand knot to the decorative Turk's head five-lead four-bight knot. This indispensable book identifies the knot you need. Are you climbing and depend on a failsafe knot? The figure-of-eight's distinctive shape makes it easy to check it has been tied correctly. A slipped-release is useful when you need to untie your knot quickly. And if you ever want to know if a knot has been untied, try the quirky "thief" knot - so-called because a thief will betray their presence by retying it incorrectly. You'll also learn the history behind the different types of knots and the fascinating stories behind how many of them came about. *Knots Step by Step* comes with a practice rope attached to the book, so you can practice the knots as many times as you want until you are completely confident.

Without doubt, this is the ideal book to have to hand for whenever a knot is needed.

How to Make Whips Schiffer Craft

The Modern Survival Manual is based on first hand experience of the 2001 Economic Collapse in Argentina. In it you

will find a variety of subjects that the author considers essential if a person wants to be prepared for tougher times: - How to prepare your family, yourself, your home and your vehicle -How to prepare your finances so that you don't suffer what millions in my country went through -How to prepare your supplies for food shortages and power failures -How to correctly fight with a chair, gun, knife, pen or choke with your bare hands if required - Most important, how to reach a good awareness level so that you can avoid having to do all that These are just a few examples of what you will find in this book. It's about Attitude, and being a more capable person and get the politically correct wimp out of your system completely.

They may be small, round, and sweet, but the mugs on these pugs can't always be believed. Hidden beneath the big eyes and innocent-looking faces often lurks a pug who has waddled to the wrong side of the tracks. Petty theft, bribery, fraud,

vandalism, even lewd and lascivious behavior are well documented in the mug shots of these pugs caught in the act of their pernicious crimes. Humorous? Yes. Funny? Not if you believe that pugs should be a little more decorous than this unruly bunch.
