Reading ConferencesThe

Classroom Essentials

Series

"With a focus on goal-directed, purpose-driven reading conferences, the author shows how form follows function--the structure of each conference is clearly designed to serve its purpose. Through "Researcher Spotlights" in each chapter, she'll also introduce you to a few of the teaching mentors and researchers who've had a profound influence on her work. The author describes different types of conferences, some designed for individuals, others for small groups. Some are used during independent reading time, others during partnership

or club time. One can read the chapters in order or dip into the chapter that best suits their needs and purpose"--

This scholarly book is the third volume in an NWU book series on self-directed learning and is devoted to self-directed learning research and its impact on educational practice. The importance of self-directed learning for learners in the 21st century to equip themselves with the necessary skills to take responsibility for their own learning for life cannot be over emphasised. The target audience does not only consist of scholars in the field of self-directed learning in Higher Education and the Schooling sector but includes all scholars in the field of teaching and learning in all education and training sectors. The book contributes to the discourse on creating dispositions towards self-

directed learning among all learners and adds to the latest body of scholarship in terms of self-directed learning. Although from different perspectives, all chapters in the book are closely linked together around self-directed learning as a central theme, following on the work done in Volume 1 of this series (Self-Directed Learning for the 21st Century: Implications for Higher Education) to form a rich knowledge bank of work on self-directed learning.

A child wanders too far into the Knysna Forest ... he never returns. Nine years later government officials working on a census find a white child living with a Coloured family in the mountains beyond the forest. They take him away from the stricken Fiela, who has brought him up as her son, and give him back to his 'original' family. Stunned and helpless, Benjamin waits for Fiela to reclaim him. But, powerless against authority, Fiela never

comes. Benjamin has to grow up before he can go in search of the truth ...

Study and Master Life Sciences Grade 11 CAPS Study Guide

Includes the plays African Gothic, Good Heavens and Breathing In A farm lies in ruin. And with mother and father now gone, a brother and sister face eviction by an officious lawyer. Abandoned, they endlessly enact the rituals of punishment once

visited upon them by their parents. Widely regarded as a milestone in South African theatre, the multi-award winning play African Gothic tells the story of their final 'dance macabre'. Despite overwhelming critical acclaim, it was also fiercely condemned by Afrikaans conservatives as being a subversive portrayal of repression. Good Heavens is a comedy thriller with the dark poetic heart of a folk-tale. Two spinster sisters, with their ailing mother and simple-minded brother, await the annual visit of their youngest sister. Deeply envious of her beauty and youth, they hatch a diabolical plot to rid themselves of her forever. In Breathing In, on a stormy night in the last bitter months of the Second Anglo-Boer War, a seriously wounded General and his faithful Adjutant encounter a mysterious woman and her seductive other-worldly daughter, and are confronted with the subtle methods of survival these women have been forced to adopt. Accustomed to the rigours of war, the courageous Adjutant now faces a terrible choice. *Cry, the Beloved Country*

OBE for FET Senior Geography
A skills standard for budding scientists is an

invaluable and practical hands-on guide for teaching students the vital skills needed at high school and early tertiary level for the successful completion of most tasks and assignments. It covers a wide range of skills from effective essay and report writing, to working with and evaluating different kinds of information and data, effective summarising and note-taking, as well as the skills required for more practical tasks such as conducting surveys, presenting orals, creating project displays, and so on. This book aims to offer practical skills education, whilst encouraging the vital practice of critical thinking, each step of the way. The book also aims to promote standardisation of skills within all schools and across all grades so that teachers and learners alike can start working from the 'same page'. Standardising skills helps eliminate the confusion arising out of conflicting skills instruction and helps learners know what should be presented in any task or assignment.
