**Les vies des saints ... avec l'histoire de leur culte** Nouvelle édition U of Nebraska Press

In this beautifully crafted, Rashomon-like novel, Maryse Conde has written a gripping story imbued with all the nuances and traditions of Caribbean culture. Francis Sancher--a handsome outsider, loved by some and reviled by others--is found dead, face down in the mud on a path outside Riviere au Sel, a small village in Guadeloupe. None of the villagers are particularly surprised, since Sancher, a secretive and melancholy man, had often predicted an

unnatural death for himself. As the villagers come to pay their respects they each--either in a speech to the mourners, or in an internal monologue-- reveal another piece of the mystery behind Sancher's life and death. Like pieces of an elaborate puzzle, their memories interlock to create a rich and intriguing portrait of a man and a community. In the lush and vivid prose for which she has become famous, Conde has constructed a Guadeloupean wake for Francis Sancher. Retaining the full color and vibrance of Conde's homeland, *Crossing the Mangrove* pays homage to Guadeloupe in both subject and structure. Les nouvelles fleurs

In a delicious slice of sci-fi whimsy that sits cleverly alongside Verne's original tale, Phileas Fogg's epic global journey is not the product of a daft wager but, in fact, a covert mission to chase down the elusive Captain Nemo - who is none other than Professor Moriarty. A secret alien war has raged on Earth for

years and is about to culminate in this epic race. A novel in the Wold Newton universe, in which characters such as Sherlock Holmes, Flash Gordon, Doc Savage, James Bond and Jack the Ripper are all mysteriously connected.

The first volume of the graphic adaptation of Yuval Noah Harari's global phenomenon and smash SUNDAY TIMES #1 BESTSELLER. Featuring 256 pages of gorgeous full-colour illustrations and wrapped in a beautiful package - this is the perfect Christmas gift for the curious beings in your life. One hundred thousand years ago, at least six

different species of humans inhabited Earth. Yet today there is only one-homo sapiens. What happened to the others? And what may happen to us? In this first volume of the adaptation of his ground-breaking book, renowned historian Yuval Harari tells the story of humankind's creation and evolution, exploring the ways in which biology and history have defined us and enhanced our understanding of what it means to be "human". From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, Sapiens challenges us to reconsider accepted beliefs, connect past developments with contemporary

concerns, and view specific events within the context of larger ideas. Featuring easy-to-understand text covering the first part of the original edition, this adaptation of the mind-expanding book furthers the ongoing conversation as it introduces Harari's ideas to a wider new readership. Une fable sur notre époque et ses vieux démons, sorte de mythe de Frankenstein revisité et récit de l'effondrement de la société. Que se passe-t-il lorsque la résurrection des corps devient un phénomène

observable scientifiquement, un sujet d'innovation technologique ? C'est ce à quoi sont confrontés les personnages de *Et que revivent les Morts*, roman d'anticipation dont l'action se passe en Amérique du Nord, à Boston et à Chicago. Dans une société où la recherche effrénée du plaisir immédiat est devenue le moteur principal, les relations entre Don, spécialiste en neurosciences et Judy, jeune étudiante paumée, deviennent une affaire planétaire susceptible de changer le futur de l'espèce humaine. Outre une aventure et une histoire d'amour, le roman est une extrapolation autour des thèmes de la prolongation indéfinie de la vie, de la

technologie incontrôlée, du transhumanisme, de l'intelligence artificielle, du risque de basculement vers l'apocalypse. Dans un style empreint d'une certaine poésie, Et que revivent les Morts nous fait rêver et réfléchir aux possibles fruits des germes contenus dans notre présent. C'est un plaidoyer pour le respect de l'humain et de toutes les formes de vie. L'amour permettra-t-il de faire face à la soif de pouvoir et aux dérapements technologiques ?

EXTRAIT Le vol vers l'aéroport d'O'Hare ne prit qu'une heure. Lisa avait envoyé un minibus me prendre. Il fallut une autre heure pour rejoindre le Campus de Chicago situé au bord du lac

Michigan, à l'extrémité nord de la ville. Les nombreux arrêts du trafic me laissèrent tout le temps d'observer à travers les vitres blindées. J'enviais les baigneurs qui profitaient du soleil de plomb sur les plages du lac. À leur teint de peau élégamment ambré et leur silhouette musclée et alerte, on devinait que la plupart n'exerçaient aucune activité professionnelle, fortune faite ou héritée. Depuis quelques années on les appelait les « Libérés ». Libérés du travail et de toute inhibition dans la recherche du plaisir ostentatoire, ils constituaient un groupe social nouveau. Jamais en effet autant de personnes de tous âges n'avaient pu dire

adieu au travail et le clamer aussi fort. Les médias les présentaient comme ayant atteint le niveau le plus achevé et le plus désirable de la réussite sociale. Combien de temps durerait la « libération » pour chacun de ces nouveaux hédonistes, me demandai-je. Un jour, l'un d'entre eux avait fait cette réponse ambiguë au micro d'un reporter : « ... en tout cas pas moins que jusque la mort. ». À PROPOS DE L'AUTEUR William Wolfhart est ingénieur de formation. Il a occupé divers postes dans l'industrie qui l'ont amené à vivre aux U.S.A. et à voyager autour du monde. It is the 23rd century. An impassable screen protects Occident from its neighbouring empires. Wang, a young seventeen-year-old Chinese boy, lives with his grandmother in a poor district of Grand-Wroclaw in Silesia, one of the sub-provinces of Sino-Russia governed by the Neo-triads. Because he has transgressed the law of Assöl the Mongol, a godfather of the clan, Wang has no other choice but to follow the path of exile.

For a gateway sometimes opens in the screen at Most in Bohemia. But what happens to emigrants from Occident? They speak of slavery or even worse; they say they are forced to fight each other like gladiators. No one has ever returned to tell the tale... The Eiffel Tower Prize for Science Fiction 1997

This book offers a thorough analysis of demons in the Hebrew Bible and Septuagint in the wider context of the ancient Near East and the Greek world. Taking a fresh and innovative angle of enquiry, Anna Angelini investigates continuities and changes in the representation of divine powers in Hellenistic Judaism, thereby revealing the role of the Greek translation of the Bible in shaping ancient demonology,

angelology, and pneumatology. Combining philological and semantic analyses with a historical approach and anthropological insights, the author both develops a new method for analyzing religious categories within biblical traditions and sheds new light on the importance of the Septuagint for the history of ancient Judaism. Le livre propose une analyse approfondie des démons dans la Bible Hébraïque et la Septante, à la lumière du Proche Orient Ancien et du contexte grec. Par un nouvel angle d'approche, Anna Angelini met en lumière dynamiques de continuité et de changement dans les représentations des

puissances divines à l'époque hellénistique, en soulignant l'importance de la traduction grecque de la Bible pour la compréhension de la démonologie, de l'angélogie et de la pneumatologie antiques. En intégrant l'analyse philologique et sémantique avec une approche historique et des méthodes anthropologiques, l'autrice développe une nouvelle méthodologie pour analyser des catégories religieuses à l'intérieur des traditions bibliques et affirme la valeur de la Septante pour l'histoire du judaïsme antique. **NOUVELLES LETRES FAMILIERES, ET AUTRES** Baen Publishing Enterprises One month, I fell for him. In the past decades, translation studies have increasingly focused on the ethical dimension of translational activity, with an emphasis on reflexivity to assert the role of the researcher in highlighting issues of visibility, creativity and ethics. In *Reflexive Translation Studies*, Silvia Kadiu investigates the viability of theories

that seek to empower translation by making visible its transformative dimension; for example, by championing the visibility of the translating subject, the translator's right to creativity, the supremacy of human translation or an autonomous study of translation. Inspired by Derrida's deconstructive thinking, Kadiu presents practical ways of challenging theories that argue reflexivity is the only way of developing an ethical translation. She questions the capacity of reflexivity to counteract the power relations at play in translation (between minor and dominant languages, for example) and

problematizes affirmative claims about (self-)knowledge by using translation itself as a process of critical reflection. In exploring the interaction between form and content, Reflexive Translation Studies promotes the need for an experimental, multi-sensory and intuitive practice, which invites students, scholars and practitioners alike to engage with theory productively and creatively through translation.

Sapiens A Graphic History, Volume 1 Titan Books (US, CA)  
When pregnant Rosie Carpe, her fatherless five-year-old son in tow, arrives in Guadeloupe looking for her elusive brother, Lazare, the world already seems a plenty

confusing place. Could the man who comes to meet her, an elegant black man calling himself Lagrand, actually be her disheveled white brother? Are her parents, who abandoned her in Paris, rediscovering themselves in an outrageous second youth of outlandish affairs, or have they simply lost their minds? And does Rosie have a hope of slipping the sticky grasp of her former employer and seducer, who moonlights as a video pornographer? If it seems unlikely that the feckless Lazare, missing for five years as he followed his own twisted path, might help, or that carnivalesque Guadeloupe, where murder and mayhem

are the natural outcomes of “business ventures,” might be the place for Rosie to find peace, then Marie NDiaye may have a few surprises in store for her reader. Amid the blurring boundaries and shifting values, the indistinct realities and confusing certainties of Rosie Carpe, a love story unfolds, and all that is ambiguous and tenuous—in short, all of Rosie’s world—is underpinned with a measure of tenderness.

Remember us...when I can't. Thea Hughes has five minutes to live. A car accident stole her parents and left her with the second-worst documented case of amnesia in the world. She now has only minutes of experiences, of consciousness, of life...before her memory is wiped clean. The once effervescent artist with a promising future is reduced to scribbling with pens and paper, living an empty, quiet

life, three hundred seconds at a time. Jim Whelan is on autopilot. A foster kid shuffled around the system since birth, he's lived his entire life without knowing love...and it's taken its toll-until he learned to fight back, carry his armor, and keep his head down. Working as an orderly in the Blue Ridge Sanitarium, deep in Virginia countryside, Jim looked up...and found Thea. When Thea has the chance to break free of her five-minute prison with a risky, experimental surgery, it could lead them both to an epic love they never thought possible... or one that could require the ultimate sacrifice. \*\*\*50 First Dates meets Awakenings in this emotional love story by

**Marvel's Spider-Man: From Amazing to Spectacular**  
 William Morrow & Company  
 Jules Verne has written, and Virginia Champlin translated, The Tribulations of a Chinaman in China, which is, as a matter of course, highly amusing and absurd. The scenes are laid in a country not often chosen in fiction, and the plan is as novel as it is preposterous. Nobody but this extravagant and irresponsible author would have been likely to have executed such a piece of work. To

give the plot would be to spoil it: enough to say that the hero, Kin-fo, who is young, rich, handsome, and about to be married, is also tired of living, and after insuring his life for a hundred years at an immense sum, covering all risks, even of suicide, decides to kill himself that his betrothed and his friend Wang may have the money, but changing his mind agrees with the latter on assassination. Afterwards concluding that he will live, he hunts China over in search of Wang, who has disappeared, two of the company's agents going with him. Their adventures, in which a phonograph and Paul Boyton's armor have an important part, are the wildest conceivable,

but all ends well, and Kin-fo, turned philosopher after his vicissitudes, sees that only those who know "how to appreciate life" are fit to live. Jules Verne has evidently "read up" China to good purpose, for there is a great amount of information, down to minute points of etiquette and ways of living, and the descriptions of Chinese matters, geographical, political, and social, are accurate and interesting.
