Bookkeeping for churches can be quite different than for-profit businesses, and

the other guides available cover either QuickBooks or church accounting, not both. Lisa London, *The Accountant Beside You*, walks you through QuickBooks for your church from start to finish, always with examples, terminology, and understanding of what a busy church administrator needs to know in a clear, concise style. With her friendly easy-to-understand style and illustrative screenshots, Lisa guides new QuickBooks users every step of the way, while her tips for how to make QuickBooks work better for churches provides new insight and

procedures for even the experienced bookkeeper. Not only does she step you through how to set up QuickBooks and utilize it more efficiently for your house of worship, but she also discusses everything you need to know to implement controls and procedures to ensure that your church's money is always protected. QuickBooks for Churches covers PC versions of QuickBooks from 2012 forward and even includes what's new in the 2014 version. Lisa offers sound accounting procedures for both large and small houses of worship, for bookkeepers with years of experience as well as those just starting out. Let The Accountant Beside You take one more worry off your crowded to-do list.

Strong academic advising has been found to be a key contributor to student persistence (Center for Public Education, 2012), and many are expected to play an advising role, including academic, career, and faculty advisors; counselors; tutors; and student affairs staff. Yet there is little training on how to do so. Various advising

strategies exist, each of which has its own proponents. To serve increasingly complex higher education institutions around the world and their diverse student cohorts, academic advisors must understand multiple advising approaches and adroitly adapt them to their own student populations. Academic Advising Approaches outlines a wide variety of proven advising practices and strategies that help students master the necessary skills to achieve their academic and career goals. This book embeds theoretical bases within practical explanations and examples advisors can use in answering fundamental questions such as: What will make me a more effective advisor? What can I do to enhance student success? What conversations do I need to initiate with my colleagues to improve my unit, campus, and profession? Linking theory with practice, Academic Advising Approaches provides an accessible reference useful to all who serve in an advising role. Based upon accepted theories within the social sciences and humanities, the approaches covered include those incorporating developmental, learning-centered,

appreciative, proactive, strengths-based, Socratic, and hermeneutic advising as well as those featuring advising as teaching, motivational interviewing, self-authorship, and advising as coaching. All advocate relationship-building as a means to encourage students to take charge of their own academic, personal, and professional progress. This book serves as the practice-based companion to Academic Advising: A Comprehensive Handbook, also from NACADA. Whereas the handbook addresses the concepts advisors and advising administrators need to know in order to build a success advising program, Academic Advising Approaches explains the delivery strategies successful advisors can use to help students make the most of their college experience.

The Only Resource of Its Kind Is Now Two Bestsellers in One! Tragically, churches have not always been safe places for children or youth or vulnerable adults. With this in mind, attorney, pastor, and author Melton outlines a process for developing policies and procedures to recognize and reduce the risk of abuse in the church. *Safe Sanctuaries* combines and expands information from two of her earlier groundbreaking books, which focused, separately, on children and teens. "Safe Sanctuaries is the most helpful resource I have found dealing with this troubling topic," says one minister. "Straightforward yet non-threatening, the information is helpful for all denominations and congregations of faith." Practical guidance is provided in developing and implementing a substantive, holistic action plan of abuse prevention: recruiting,

screening and working with volunteers training models for all who work with children, youth, and vulnerable adults suggestions for congregational response to unthinkable allegations of abuse order of worship celebrating the adoption of "Safe Sanctuaries" policies Melton's transformative, relevant, and foundational resource will train leaders in what they need to know to stay safe and keep the vulnerable in their care safe. As most managers know, you need a vision to motivate employees to achieve goals. But people, and companies, lose focus, and the future appears hazy. People say, We're getting stale, or, I just don't know where we're headed. Leaders know they need a vision to bring people together. And they know a good vision will renew enthusiasm and commitment. But waiting for inspiration rarely works--sometimes you need a vision now. But how? Recharge Your Team not only shows managers how to create an effective vision--it shows how to do it in as little as four hours, using a time-tested, proven

approach. Traditionally, companies call in consultants to help create a vision. Experts can help--for \$4,000 per day plus expenses. And then there's the time involved: Visioning efforts can take months. This book offers a less-expensive, faster method. Called Grounded Visioning, and based on a concept called appreciative inquiry, the process allows groups to come up with a revitalizing vision that everyone buys into in half a day or less. How? As this book shows, the key is to be sure everyone takes part, to base the vision on how the team acts when at its best, and to imagine a vision bold enough to inspire but practical enough to feel achievable. This book covers the six quick but essential steps that ensure such results--with small teams or large groups. And any manager, not just trainers or HR people, can lead a successful Grounded Visioning session. Grounded visioning is a breakthrough concept of breathtaking simplicity and power that any leader can put to use today. It works, because it frees employees to share their dreams, hopes, and aspirations. As they soar, a vision naturally arises that recharges the team.

#### What Counts Penguin

For Black women faculty members and student affairs personnel, this book delineates the needed skills and the range of possible pathways for attaining administrative positions in higher education. This book uses a survey that identifies the skills and knowledge that Black women administrators report as most critical at different stages of their careers as a foundation for the personal narratives of individual administrators' career progressions. The contributors address barriers, strategies, and considerations such as the comparative merits of starting a career at an HBCU or PWI, or at a public or private institution. Their stories shine light on how to develop the most effective leadership style, how to communicate, and the importance of leading with credibility. They dwell on the necessity of listening to one's inner voice in guiding decisions, of maintaining integrity and having a clear sense of values, and of developing a realistic sense of personal limitations and abilities. They illustrate how to combine institutional and personal priorities with service to the community; share how the authors carved

out their distinct and purposeful career paths; and demonstrate the importance of the mentoring they received and provided along the way. A theoretical chapter provides a frame for reflecting on the paths traveled. These accounts and reflections provide enlightenment, inspiration, and nuggets of wisdom for all Black women who want to advance their careers in higher education.
