Annual Report Wolters Kluwer Law & Business

The Mennonites, like many smaller immigrant religious groups, initially lived on the margins of North American society. The twentieth century brought them into the economic and cultural mainstream. That adaptation is the subject of the eleven essays and autobiographies of Bridging Troubled Waters. The essays are written by notable Mennonite scholars -- John H. Redekop, Ted Regehr, Katie Funk Wiebe, and others. The autobiographies by David Ewert, Waldo Hiebert, and J.B. Toews sparkle with insight into the transitions they and their people navigated during these momentous decades (1940-1960).

IT Governance: Policies and Procedures, 2022 Edition

The Official Index to the Times

The role of IT management is changing even more quickly than information technology itself. IT Governance Policies & Procedures, 2021 Edition, is an updated guide and decision-making reference that can help you to devise an information systems policy and procedure program uniquely tailored to the needs of your organization. This valuable resource not only provides extensive sample policies, but also gives the information you need to develop useful and effective policies for your unique environment. For fingertip access to the information you need on IT governance, policy and planning, documentation, systems analysis and design, and much more, the materials in this ready-reference desk manual can be used by you or your staff as models or templates to create similar documents for your own organization. The 2021 Edition brings you the following changes: The chapter on Information Technology Infrastructure Library (ITIL) has been thoroughly revised to incorporate the recent launch of ITIL version 4. The sections on causes of employee burnout, as well as the potential pitfalls of poor recruiting practices, have been expanded. New material has been added to address the increased use of video conferencing for virtual workers, as well as the need to safeguard personal smartphones that store company information. Tips for developing a mobile device policy have been added. Additional pitfalls associated with end-user computing have been added. A new subsection regarding data storage guidelines for documents subject to data retention laws has been added. Additional tips regarding data management have been added. Appendix A has been updated to include data breach notification laws for Puerto Rico and the Virgin Islands, and also to reflect changes to Vermont's data breach notification laws. Data from recent surveys and reports has been added and updated in the Comment sections throughout. In addition, exhibits, sample policies, and worksheets are included in each chapter, which can also be accessed at WoltersKluwerLR.com/ITgovAppendices. You can copy these exhibits, sample policies, and worksheets and use them as a starting point for developing your own resources by making the necessary changes. Previous Edition: IT Governance: Policies & Procedures, 2020 Edition ISBN 9781543810998

Decisions and Orders of the National Labor Relations Board

A history of the 1940 U.S. presidential election, when bitterly divided Americans debated the fate of

the nation and the world. In 1940, against the explosive backdrop of the Nazi onslaught in Europe, two farsighted candidates for the U.S. presidency—Democrat Franklin D. Roosevelt, running for an unprecedented third term, and talented Republican businessman Wendell Willkie—found themselves on the defensive against American isolationists and their charismatic spokesman Charles Lindbergh, who called for surrender to Hitler's demands. In this dramatic account of that turbulent and consequential election, historian Susan Dunn brings to life the debates, the high-powered players, and the dawning awareness of the Nazi threat as the presidential candidates engaged in their own battle for supremacy. 1940 not only explores the contest between FDR and Willkie but also examines the key preparations for war that went forward, even in the midst of that divisive election season. The book tells an inspiring story of the triumph of American democracy in a world reeling from fascist barbarism, and it offers a compelling alternative scenario to today's hyperpartisan political arena, where common ground seems unattainable. "Anyone today who believes that U.S. involvement and the ultimate Allied triumph in World War II was inevitable must read this important history."—Michael Beschloss, New York Times bestselling author of *Presidential Courage* "Susan

Dunn, a prolific and outstanding historian, has crafted a fast-paced, serious, and extraordinarily well-researched book about the events surrounding the pivotal 1940 election. Her main characters...come brilliantly to life. I could hardly put the book down."—James T. Patterson, author of Bancroft Prize-winning *Grand Expectations: The United States, 1945-1974*
