The 20th anniversary

issue of the world's
best how-to magazine
for woodcarvers is
packed with carving
patterns, how-to tips,
and step-by-step
projects for all skill

levels. We offer plenty of Christmas carving ideas for holiday gifts and decorations, from Larry Green's delightful caricature tree ornaments to an exquisite relief-carved snowman from Lora S. Irish. Our jolly assortment of Santa projects includes Dylan Goodson's realistic St. Nick, plus a new chance to carve our very first Santa from Woodcarving Illustrated issue #1. Carolea Hower creates smiling Santas from ordinary wooden spoons, and Randy True shows how to transform ordinary golf tees into tiny Santa ornaments! You'll also find many great projects unrelated to Christmas that will make terrific gifts. "Game of Thrones" fans will enjoy Tamera

Seevers' dragon wand, Tom Dean shows you how to use power tools to carve heirloom-quality bracelets, and Karen Hundt-Brown uses a woodburner to turn gourds into functional lamps. The Cheapskate's Handbook Fox Chapel Publishing Drawing on twenty years of research on the most common positive and negative influencing techniques people use to get ahead, author Terry R. Bacon explains how influence works and how you can use it to lead effectively and reach any goal. In Elements of Influence, he teaches readers why people allow themselves to be influenced and why they resist; how to choose the right influencing approach in

different situations; how to be influential without formal authority; and what it takes to achieve success in every kind of organization or professional role--even when working with those from other countries and cultures. We succeed when we're able to influence how others think, feel, and act: getting them to accept our point of view, follow our lead, join our cause, feel our excitement, or buy our products and services. By shedding light on how the act of influencing impacts our daily lives--even when we don't realize we (or others) are doing it--*Elements of Influence* offers the key to using this tool more consciously and effectively through adaptability,

perceptiveness, and insight. Whether you're a business leader, frontline employee, entrepreneur, or stay-at-home parent, this universal resource--filled with tips, exercises, and practical applications--shows how anyone can exert influence to achieve real results.

Genius of Britain

(Text Only) Random House Australia

In 1861, the death penalty was abolished

for sodomy in Britain; just over a century later, in 1967, homosexuality was finally decriminalised. Between these legal landmarks lies a century of seismic shifts in gender and sexuality for men and women. These found expression across the arts as British artists, collectors and consumers explored transgressive identities, experiences and desires. Some of these works were intensely personal, celebrating lovers or expressing private desires. Others addressed a wider public, helping to forge a sense of community at a time when the modern categories of gay, lesbian, bisexual and transgender were largely unrecognised. Ranging from the

playful to the political, the explicit to the domestic, these works showcase the rich diversity of queer British art. This publication, the first to focus exclusively on British queer art, will feature sections on ambivalent sexualities and gender experimentation amongst the Pre-Raphaelites; the new science of sexology's impact on portraiture; queer domesticities in Bloomsbury and beyond; eroticism in the artist's studio and relationships between artists and models; gender play and sexuality in British surrealism; and love and lust in sixties Soho. 00Exhibition: Tate Britain, London, United Kingdom (05.04.2017-01.10.2017).

THE TIMES ART BOOK

OF THE YEAR Named

one of The Irish Times'

Books of the Year for

2021 A compelling and

comprehensive look at

the life and art of

Francis Bacon, one of

the iconic painters of

Pulitzer Prize-winning

authors of de Kooning:

An American Master.

This intimate study of

the singularly private,

darkly funny, eruptive

man and his

extraordinary art “is

Washington Post). “A

definitive life of Francis

Bacon ... Stevens and

Swan are vivid scene

setters ... Francis Bacon does justice to the contradictions of both the man and the art." —The Boston Globe Francis Bacon created an indelible image of mankind in modern times, and played an outsized role in both twentieth century art and life—from his public emergence with his legendary Triptych 1944 (its images "so unrelievedly awful" that people fled the gallery), to his death in Madrid in 1992. Bacon was a witty free spirit and unabashed homosexual at a time when many others remained closeted, and his exploits were as unforgettable as his images. He moved among the worlds of London's Soho and East End, the literary salons of London and

Paris, and the homosexual life of Tangier. Through hundreds of interviews, and extensive new research, the authors probe Bacon's childhood in Ireland (he earned his father's lasting disdain because his asthma prevented him from hunting); his increasingly open homosexuality; his early design career—never before explored in detail; the formation of his vision; his early failure as an artist; his uneasy relationship with American abstract art; and his improbable late emergence onto the international stage as one of the great visionaries of the twentieth century. In all, Francis Bacon: Revelations gives us a more complete and nuanced--and more

international--portrait than ever before of this singularly private, darkly funny, eruptive man and his equally eruptive, extraordinary art. Bacon was not just an influential artist, he helped remake the twentieth-century figure.

The high society of Stuart England found Frances Coke Villiers, Viscountess Purbeck (1602-1645) an exasperating woman. She lived at a time when women were expected to be obedient, silent, and chaste, but Frances displayed none of these qualities. Her determination to ignore convention contributed in no small measure to a life of high drama, one which

encompassed kidnappings, secret rendezvous, an illegitimate child, accusations of black magic, imprisonments, disappearances, and exile, not to mention court appearances, high-speed chases, a jail-break, deadly disease, royal fury, and - by turns - religious condemnation and conversion. As a child, Frances became a political pawn at the court of King James I. Her wealthy parents, themselves trapped in a disastrous marriage, fought tooth and nail over whom Frances should marry, pulling both king and court into their extended battles. When Frances was fifteen, her father forced her to marry John Villiers, the elder brother of the royal favourite, the Duke of

Buckingham. But as her husband succumbed to mental illness, Frances fell for another man, and soon found herself pregnant with her lover's child. The Viscountess paid a heavy price for her illicit love. Her outraged in-laws used their influence to bring her down. But bravely defying both social and religious convention, Frances refused to bow to the combined authority of her family, her church, or her king, and fought stubbornly to defend her honour, as well as the position of her illegitimate son. On one level a thrilling tale of love and sex, kidnapping and elopement, the life of Frances Coke Villiers is also the story of an exceptional woman, whose personal experiences

intertwined with the court politics and religious disputes of a tumultuous and crucially formative period in English history.

NATIONAL BESTSELLER

The "riveting" (National

Post) tick-tock account

of the largest

manmade explosion in

history prior to the

atomic bomb, and the equally astonishing tales of survival and heroism that emerged from the ashes “Enthralling. ... Gripping. ... A captivating and emotionally investing journey.” —Pittsburgh Post-Gazette After steaming out of New York City on December 1, 1917, laden with a staggering three thousand tons of TNT and other explosives, the munitions ship Mont-Blanc fought its way up the Atlantic coast, through waters prowled by enemy U-boats. As it approached the lively port city of Halifax, Mont-Blanc's deadly cargo erupted with the force of 2.9 kilotons of TNT—the most powerful explosion ever visited on a human population, save for

Hiroshima and Nagasaki. Mont-Blanc was vaporized in one fifteenth of a second; a shockwave leveled the surrounding city. Next came a thirty-five-foot tsunami. Most astounding of all, however, were the incredible tales of survival and heroism that soon emerged from the rubble. This is the unforgettable story told in John U. Bacon's *The Great Halifax Explosion*: a ticktock account of fateful decisions that led to doom, the human faces of the blast's 11,000 casualties, and the equally moving individual stories of those who lived and selflessly threw themselves into urgent rescue work that saved thousands. The shocking scale of the disaster stunned the

world, dominating global headlines even amid the calamity of the First World War. Hours after the blast, Boston sent trains and ships filled with doctors, medicine, and money. The explosion would revolutionize pediatric medicine; transform U.S.-Canadian relations; and provide physicist J. Robert Oppenheimer, who studied the Halifax explosion closely when developing the atomic bomb, with history's only real-world case study demonstrating the lethal power of a weapon of mass destruction. Mesmerizing and inspiring, Bacon's deeply-researched narrative brings to life the tragedy, bravery, and surprising afterlife of one of the most dramatic events of

modern times.

Clementine Rose and the Wedding Wobbles 13

Andrews McMeel Publishing
Lady Anne Bacon Drury (1572-1624) was the granddaughter and niece of two of England's Lord Keepers of the Great Seal, Sir Nicholas Bacon and Sir Francis Bacon. Lady Anne was also the friend and patroness of John Donne and Joseph Hall; however, she deserves to be remembered in her own right. Within her massive country house, Lady Anne created a tiny painted room that she seems to have used as a kind

of three-dimensional book. The walls consisted of panels of pictures and mottoes, grouped under Latin sentences. These panels can still be viewed in a Suffolk museum: Christchurch Mansion in Ipswich. Some panels point to classical and Biblical sources, and to popular emblem books. The sources of other panels are more recondite, while still others are original compositions by Lady Anne. The panels exhibit a *contemptus mundi* theme and reflect a struggle with ambition, pride, and even despair. Some panels also appear to register carefully veiled but pointed critiques of political and religious events and figures. Lady Anne's painted closet or 'architext' is

thus relevant to a wide range of early modern scholarship in various disciplines but is as yet largely unappreciated. For the first time in four hundred years, this book fully describes the closet and places it in its personal, social, intellectual, and aesthetic contexts. It argues for the painted closet's importance for understanding early modern conceptualizations of private and public spaces, and for illuminating fundamental early modern habits of seeing and reading (especially combinations of text and image). Finally, this book explores the closet as an example of the ingenious ways in which female subjectivity found ways

to express itself even within the constraints of early modern patriarchal society in England.
