 The Transgender Encyclopedia demonstrating the scale and diversity of the growing worldwide transgender lifestyle, as well as a guide to making the most of the opportunities that it provides. As transgender life becomes more prevalent, and gender stereotypical

**Reading with Phonics the Princess and the Pea** Univ. Press of Mississippi  
 I was only sixteen when I bought an electric guitar and joined a band. A year later, I formed an all-girl band called the Marine Girls and played gigs, and signed to an indie label, and started releasing records. Then, for eighteen years, between 1982 and 2000, I was one half of the group Everything But the Girl. In that time, we released nine albums and sold nine million records. We went on countless tours, had hit singles and flop singles, were reviewed and interviewed to within an inch of our lives. I've been in the charts, out of them, back in. I've seen myself described as an indie darling, a middle-of-the-road nobody and a disco diva. I haven't always fitted in, you see, and that's made me face up to the realities of a pop career - there are thrills and wonders to be experienced, yes, but also moments of doubt, mistakes, violent lifestyle changes from luxury to squalor and back again, sometimes within minutes.

 So your neighbor's giant sequoia is blocking your view. Who ya gonna call? The search for a 'dispute buster' should end with this helpful new book. *Sunset Magazine* - For anyone with a neighbor problem, [Neighbor Law] is a handy book indeed. It walks the reader through written and common law, tells you what your rights are and how to follow through on a complaint all the way to court, if necessary. - *Oakland Tribune* - Explains how to use mediation services, research local laws, and present a convincing case in small claims court. - *Reuters* - Surprisingly, this is a fun read. The author includes interesting sidebars and court decisions to clarify her explanations. - *Sacramento Bee* - A Nolo book that gives practical, no-nonsense approaches to handling neighbor disputes. - *Los Angeles Times* - This classic book, which keeps getting better with each new edition, answers virtually all questions regarding fences, trees, boundaries and noise. - *Orlando Sentinel* - Jordan peppers the book with real stories of problems neighbors have with each other. The stories are interesting and, in some cases, hilarious. - *Arizona Republic* - Even if you don't have a serious neighbor problem yet, this well-written and complete book is a fun and educational read. It is extremely thorough and well-documented. 4 stars: excellent. - Robert Bruss, nationally syndicated real-estate columnist

**Housing, Land, and Property Rights in Post-Conflict United Nations and Other Peace Operations** A&C Black  
 Theater veteran and acting teacher Joanna Merlin has written the definitive guide to auditioning for stage and screen, bringing to it a valuable dual perspective. She has spent her career on both sides of the auditioning process,

both as an award-winning casting director who has worked with Harold Prince, Bernard Bertolucci, and James Ivory, and as an accomplished actor herself. In this highly informative and accessible book, Merlin provides everything the actor needs to achieve self-confidence and artistic honesty—from the most basic practical tips to an in-depth framework for preparing a part. Filled with advice from the most esteemed people in the business, such as James Lapine, Nora Ephron, and Stephen Sondheim, and charged with tremendous wisdom and compassion, this indispensable resource will arm the reader to face an actor's greatest challenge: getting the part.

The Great Bridge Conspiracy chronicles the espionage and card playing exploits of Captain Diggery Piper -- a flamboyant expert first created by Terry Quinn for a serial in Games Magazine. Just as Carroll's *Through the Looking Glass* and Nabokov's *The Defense* are structured in accordance with the rules and logic of chess, so Quinn has patterned the action of this swift-paced, suspenseful tale on the psychological intricacies of bridge,

craftily building a house of cards that tumbles into a surprise ending.

*GC & HTJ*. Routledge

Bucking the System Springer

The wind is a fickle source of power. Windspeeds are frequently too low to be of any practical use, so that windpower has generally remained a marginal resource. Since the inception of windpower around 1000 AD, technology has been deployed to obtain the most economical power from wind. The author traces its technical evolution, concentrating on the growth in understanding of wind and charting crucial developments in windmill design. The history of the windmill is focused on North Western Europe, drawing on the origins of the first horizontal windmills in Persia, Tibet and China. Industrial applications such as in textiles, papermaking and mining are examined. Gradually, windmills were improved but were finally eclipsed by steam engines in the nineteenth century due to increased levels of industrialisation. The book concludes with a look at the recent re-emergence of windpower as a viable source of power in the wake of the energy crisis.

Patrick thinks he's hit the jackpot landing an interview with the eccentric billionaire tech mogul Ezra Maes. But while the celebrity deer is charming and brilliant, Pat wasn't expecting something both men had in common: a desire for Pat's lovely girlfriend Nightshade. Ever eager to please his lover, and curious to explore new frontiers in the bedroom, Pat suggests Nightshade start up a relationship - not with Ezra, but rather his sex-hungry alter ego Buck. Has this new phase of Pat and Night's relationship also become their last?

**The Experience of Economic Redistribution** NOLO

The Taiwan economy has undergone a successful transition in the post-war period-transition from agricultural to

industrial, from traditional to modern, and from backward to advanced economy. This book explores and illuminates broad dimensions of the transition growth of the Taiwan economy for the period 1951-81. It deals in depth with all major aspects: key issues of the early period; labor absorption and income distribution; trade, prices and external shocks; technical change; and economic policies. The coverage of these topics is extensive, so as to give readers a comprehensive outlook of the development of Taiwan after the Second World War.

Digital Theatre is a rich and varied art form evolving between performing bodies gathered together in shared space and the ever-expanding flexible reach of the digital technology that shapes our world. This book explores live theatre performances which incorporate video projection, animation, motion capture and triggering, telematics and multisite performance, robotics, VR, and AR. Through examples from practitioners like George Coates, the Gertrude Stein Repertory Theatre, Troika Ranch, David Saltz, Mark Reaney, The Builder's Association, and ArtGrid, a picture emerges of how and why digital technology can be used to effectively create theatre productions matching the storytelling and expressive needs of today's artists and audiences. It also examines how theatre roles such as director, actor, playwright, costumes, and set are altered, and how ideas of body, place, and community are expanded.

*Commodity Trading Manual* Routledge

In the 1960s rock 'n' roll music began crossing the Atlantic Ocean—with The Beatles and The Who leading the British Invasion of the United States—and the Pacific Ocean, as American and European rock slowly began to take hold in Japan. This insightful study from visionary rock musician Julian Cope explores what really happened when Western music met Eastern shores. The clash between traditional Japanese values and the wild renegades of 1960s and 1970s rock 'n' roll is examined, and the seminal artists in Japanese post-World War II culture are all covered. From itinerate art-house poets to violent refusenik bands with penchants for plane hijacking, this is the story of the Japanese youths and musicians who simultaneously revolutionized a musical

genre and the culture of a nation. Julian Cope is a rock musician and music reviewer. His previous books

include *Krautrocksampler*, *The Megalithic European*, and *The Modern Antiquarian*.
