### The Structure and Form of the French Enlightenment: Esprit philosophique Mondial

This 1999 reference grammar, written for advanced students of French, their teachers, and others who want a better understanding of the French language, combines the best of modern and traditional approaches. Its objective is not only practical mastery of the language, but familiarity with its structure. Taking into account modern linguistic research, Advanced French Grammar approaches the French language primarily through the study of syntactic structures, but without excessive emphasis on formalism. It

provides a generous number of examples, based on the author's own experience of teaching French to English-speakers, to help the student to understand the different meanings of apparently similar syntactic alternatives. The norms of 'correct expression' are given together with current usage and deviations, and appendixes provide information on the 1990 spelling reforms and on numbers. A substantial index of French and English words and of topics provides easy access to the text itself.

**Complete French Course** Routledge Essays by a prominent contemporary composer explore a current trend in classical music away from atonal characteristics and toward more traditional forms. Topics include cultural identity, musical meaning, and the aesthetics of beauty.

Histoire des sept sages Wentworth Press Ecocritical Approaches to Literature in French applies the methods of ecocritical inquiry to French literature. To date, there is very little ecocritical scholarship on French-language literature and, indeed, very little on any non-Anglophone literature. This collection was created with two audiences in mind: it introduces an ecocritical perspective for readers of French literature, and it familiarizes ecocritics with literature in French. This collection will be a useful resource to scholars of French and Francophone literature, and of ecocriticism. Georges Perec Walter de Gruyter GmbH & Co KG

This bilingual edition, based on a reexamination of the Old French manuscript, makes Silence available to specialists and students in various fields of

literature, to those in women's studies and, most important, to everyone who loves a first-rate story.

Twelve women connected by the death of another, realizing what they most want from life and reaching for it - this is the year of discovery, the year of new beginnings. Moira Sykes has a dream. She wants to open a women's health clinic and shelter for women who need help. The dream has almost become a reality, but the fact that she's focusing on helping women escape bad situations has drawn the attention of men who are threatened by her mission. When Moira receives a death threat, Detective Nathaniel Hayes steps in to protect her, but can he save her from an enemy that is determined to stop her dream in its tracks?

Although treated as two distinct schools of thought, ecocriticism and geocriticism have both placed emphasis on the lived environment, whether through social or natural spaces. For the first time, this interdisciplinary collection of essays addresses the complementary and contested aspects of these approaches to literature, culture, and society.

"This is a book just the way I don't like them," the father of French Symbolism, Stéphane Mallarmé, informs the reader in his preface to *Divagations*: "scattered and with no architecture." On the heels of this caveat, Mallarmé's diverting, discursive, and gorgeously disordered 1897 masterpiece tumbles forth--and proves itself to be just the sort of book his readers like most. The salmagundi of prose poems, prose-poetic musings, criticism, and reflections that is *Divagations* has long been considered a treasure trove by students of aesthetics and modern poetry. If Mallarmé captured the tone and very feel of fin-de-siècle Paris, he went on to captivate the minds of the greatest writers of the twentieth century--from Valéry and Eliot to Paul de Man and Jacques Derrida. This was the only book of prose he published in his lifetime and, in a new translation by Barbara Johnson, is now available for the first time in English as Mallarmé arranged it. The result is an entrancing work through which a notoriously difficult-to-translate voice shines in all of its languor and musicality. Whether contemplating the poetry of Tennyson, the possibilities of language, a

masturbating priest, or the transporting power of dance, Mallarmé remains a fascinating companion--charming, opinionated, and pedantic by turns. As an expression of the Symbolist movement and as a contribution to literary studies, *Divagations* is vitally important. But it is also, in Johnson's masterful translation, endlessly mesmerizing.

The author describes the influence on the Enlightenment of the intellectual currents that had been active in France, particularly the historical and humanistic esprit critique and the scientific esprit modern. In the first volume he traces the transformation they brought about in religion, ethics, aesthetics, science, politics, economics, and self-knowledge. His analysis of works by Voltaire, Diderot, and Rousseau--including the Encyclopedic--defines their organic unity and clarifies contradictions that appear to threaten the coherence, consistency, and logical continuity of the esprit philosophique. Serge Mouret, the younger son of Francois Mouret (see *La Conquete de Plassans*), was ordained to the priesthood and appointed Cure of Les Artaud, a squalid village in Provence, to whose degenerate inhabitants he ministered with small encouragement. He had inherited the family taint of the Rougon-Macquarts, which in him took the same form as in the case of his mother--a morbid religious

enthusiasm bordering on hysteria. Brain fever followed, and bodily recovery left the priest without a mental past. Dr. Pascal Rougon, his uncle, hoping to save his reason, removed him from his accustomed surroundings and left him at the Paradou, the neglected demesne of a ruined mansion-house near Les Artaud, where he was nursed by Albine, niece of the caretaker. The Abbé fell in love with Albine, and, oblivious of his vows, broke them... (J. G. Patterson)

Clothing was used in the Middle Ages to mark religious, military, and chivalric orders, lepers, and prostitutes. The ostentatious display of luxury dress more specifically served as a means of self-definition for members of the ruling elite and the courtly lovers among them. In *Courtly Love Undressed*, E. Jane Burns unfolds the rich display of costly garments worn by amorous partners in literary texts and other cultural documents in the French High Middle Ages. Burns "reads through clothes" in lyric, romance, and didactic literary works, vernacular sermons, and sumptuary laws to show how courtly attire is used to negotiate desire, sexuality, and symbolic space as well as social class. Reading through clothes reveals that the expression of female desire, so often effaced in courtly lyric and romance, can be registered in the poetic deployment of fabric and adornment, and that gender is often configured along a sartorial continuum, rather than in terms of naturally derived categories of woman and man. The symbolic identification of the court itself as a hybrid crossing place between Europe and the East also emerges through Burns's reading of literary allusions to the trade, travel, and pilgrimage that brought luxury cloth to France.

Le premier mai 1876 Louis Riel écrivait à Mgr Courget: "Le Saint-Esprit m'a dit: Tu es le Messie de Gloire humaine que la Maison de Jacob s'attendait à trouver dans le Verbe incarné". A la suite de quel cheminement psychologique et sous la pression de quels facteurs sociaux Louis Riel en arriva-t-il à cette conviction? Quelle fut l'évolution de cette idéologie messianique et millénariste tout au long de sa vie? Enfin quel rôle joua cette idéologie dans ses actions politiques entre 1869 et 1885? Utilisant abondamment des sources manuscrites souvent inédites, la présente analyse de sociologie historique entend situer la personne de Riel dans l'histoire collective du peuple métis. La description circonstanciée des bouleversements socio-économiques du peuple métis et l'analyse détaillée des traumatismes

psychologiques de Louis Riel se conjuguent pour éclairer d'un jour nouveau cette page controversée de l'histoire canadienne.

Michel Chion is renowned for his explorations of the significance of frequently overlooked elements of cinema, particularly the role of sound. In this inventive and inviting book, Chion considers how cinema has deployed music. He shows how music and film not only complement but also transform each other. The first section of the book examines film music in historical perspective, and the second section addresses the theoretical implications of the crossover between art forms. Chion discusses a vast variety of films across eras, genres, and continents, embracing all the different genres of music that filmmakers have used to tell their stories. Beginning with live accompaniment of silent films in early movie houses, the book analyzes Al Jolson's performance in *The Jazz Singer*, the zither in *The Third Man*, Godard's patchwork sound editing, the synthesizer welcoming the flying saucer in *Close Encounters of the Third Kind*, and the Kinshasa orchestra in *Félicité*, among many more. Chion considers both original scores and incorporation of preexisting works, including the use and reuse of particular composers across cinematic traditions, the introduction of popular music such as jazz and rock, and directors' attraction to atonal and dissonant music as well as musique concrète, of which he is a composer. Wide-ranging and original, *Music in Cinema* offers a welcoming overview for students and general readers as well as refreshingly new and valuable perspectives for film scholars.

Reassessing the Radical Enlightenment comprises fifteen new essays written by a team of international scholars. The collection re-evaluates the characteristics,

meaning and impact of the Radical Enlightenment between 1660 and 1825, spanning England, Ireland, the Dutch Republic, France, Germany and the Americas. In addition to dealing with canonical authors and celebrated texts, such as Spinoza and his *Tractus theologico-politicus*, the authors discuss many less well-known figures and debates from the period. Divided into three parts, this book: Considers the Radical Enlightenment movement as a whole, including its defining features and characteristics and the history of the term itself. Traces the origins and events of the Radical Enlightenment, including in-depth analyses of key figures including Spinoza, Toland, Meslier, and d'Holbach. Examines the outcomes and consequences of the Radical Enlightenment in Europe and the Americas in the eighteenth century. Chapters in this section examine later figures whose ideas can be traced to the Radical Enlightenment, and examine the role of the period in the emergence of egalitarianism. This collection of essays is the first stand-alone collection of studies in English on the Radical Enlightenment. It is a timely and comprehensive overview of current research in the field which also presents new studies and research on the Radical Enlightenment.
