Khushwant Singh's Big Fat Joke

Book Orient Paperbacks

Over the last five years, widespread concern about the effects of social media on democracy has led to an explosion in research from different disciplines and corners of academia. This book is the first of its kind to take stock of this emerging multi-disciplinary field by synthesizing what we know, identifying what we do not know and obstacles to future research, and charting a course

for the future inquiry. Chapters by leading scholars cover major topics – from disinformation to hate speech to political advertising – and situate recent developments in the context of key policy questions. In addition, the book canvasses existing reform proposals in order to address widely perceived threats that social media poses to democracy. This title is also available as Open Access on Cambridge Core.

The End of India Penguin UK

A framework for understanding the distinctiveness of Indian cinema as a national cinema within a global context dominated by Hollywood is proposed by this book. With its sudden explosions into song-and-dance sequences, half-time intermissions and heavy traces of censorship, Indian cinema can be identified as a 'Cinema of Interruptions'. To the uninitiated viewer, brought up on the seamless linear plotting of Hollywood narrative, this unfamiliar tendency towards digression may appear random and superfluous, yet this book argues that such devices assist in the construction of a distinct visual and narrative time-space. In the hands of

imaginative directors, the conventions of Indian cinema become opportunities for narrative play and personal expression in such films as 'Sholay' (1975), 'Nayakan' (1987), 'Parinda' (1989), 'Hathyar' (1981) and 'Hey Ram!' (1999). 'Cinema of Interruptions' places commercial Indian film within a global system of popular cinemas, but also points out its engagement with the dominant genre principles implemented by Western film. By focusing on the action-genre work of leading contemporary directors J.P. Dutta, Mani Ratnam, and Vidhu Vinod Chopra, brazen national style is shown to interact with international genre films to produce a hybrid form that reworks the gangster film, the western and the avenging woman genre. Central to this study is

the relationship Indian cinema shares with its audience, and an understanding of the pleasures it offers the cinophile. In articulating this bond the book presents not only a fresh framework for understanding popular Indian cinema but also a contribution to film genre studies.

Barbaric Intercourse tells the story of a century of social upheaval and the satiric attacks it inspired in leading periodicals

in both England and America. Martha Banta explores the politics of caricature and cartoon from 1841 to 1936, devoting special attention to the original Life magazine. For Banta, Life embodied all the strengths and weaknesses of the Progressive Era, whose policies of reform sought to cope with the frenetic urbanization of New York, the racist laws of the Jim Crow South, and the rise of jingoism in the United States. Barbaric Intercourse shows how Life's take on these trends and events resulted in satires both cruel and enlightened. Banta also deals extensively with London's Punch, a sharp critic of American nationalism, and draws from images and writings in magazines as diverse as Puck, The Crisis, Harper's Weekly, and The International Socialist

Review. Orchestrating a wealth of material, including reproductions of rarely seen political cartoons, she offers a richly layered account of the cultural struggles of the age, from contests over immigration and the role of the New Negro in American society, to debates over Wall Street greed, women's suffrage, and the moral consequences of Western expansionism.

Multilingualism is integral to the human condition. Hinging on the concept of Creative Multilingualism – the idea that language diversity and creativity are mutually enriching – this timely and thought-provoking volume shows how the concept provides a matrix for experimentation with ideas, approaches

and methods. The book presents four years of joint research on Creative Multilingualism conducted across disciplines, from the humanities through to the social and natural sciences. It is structured as a manifesto, comprising ten major statements which are unpacked and explored through various case studies across ten chapters. They encompass areas including the rich relationship between language diversity and diversity of identity, thought and expression; the interaction between language diversity and biodiversity; the ‘prismatic’ unfolding of meaning in translation; the benefits of linguistic creativity in a classroom-setting; and the ingenuity underpinning ‘conlangs’ (‘constructed languages’) such as Tolkien’s Quenya and Sindarin, designed

to give imagined peoples a distinctive medium capable of expressing their cultural identity. Creative Multilingualism: A Manifesto is a welcome contribution to the field of modern languages, highlighting the intricate relationship between multilingualism and creativity, and, crucially, reaching beyond an Anglo-centric view of the world. Intended to spark further research and discussion, this book appeals to young people interested in languages, language learning and cultural exchange. It will be a valuable resource for academics, educators, policy makers and parents of bilingual or multilingual children. Its accessible style also speaks to general readers interested in the role of language diversity in our everyday lives,

and the untapped creative potential of multilingualism.
