WALNECK'S CLASSIC CYCLE TRADER, APRIL 1999 Chronicle Guidance Publications

The purpose of this study is to trace the development of high-school curricula in the North Central states from 1860 to 1900. A brief

introduction furnishes a background for the geographical area indicated. Part I contains a treatment of subjects and their organization into curricula. Part II deals with the subject matter of the various fields and subjects. Part III addresses subjects and subject matter in greater depth. For purposes of tabulation, the period 1860-1900 has been divided into eight units of five years each, to determine as accurately as possible the dates at which significant changes

took place. In the treatment of subjects, organization of curricula and subject matter, the facts are presented as revealed by the sources consulted. No attempt has been made to give connected accounts of particular schools. Peculiarities of individual schools have been noted but conclusions deal with general practices and tendencies.

Evidence Taken by the Interstate Commerce Commission in the Matter of Proposed Advances in Freight Rates by Carriers.

August to December, 1910

First multi-year cumulation covers six years: 1965-70.
