In her Introduction, Tymieniecka states the core theme of the present book sharply: Is culture an excess of nature's prodigious expansiveness - an excess which might turn out to be dangerous for nature itself if it goes too far - or is culture a 'natural', congenial prolongation of nature-life? If the latter, then culture is assimilated into nature and thus would lose its claim to autonomy: its criteria would be superseded by those of nature alone. Of course, nature and culture may both still be seen as being absorbed by the inner powers of specifically human inwardness, on which view, human being, caught in its own transcendence, becomes separated radically in kind from the rest of existence and may not touch even the shadow of reality except through its own prism. Excess, therefore, or prolongation? And on what terms? The relationship between culture and nature in its technical phase demands a new elucidation. Here this is pursued by excavating the root significance of the 'multiple rationalities' of life. In contrast to Husserl, who differentiated living types according to their degree of participation in the world, the phenomenology of life disentangles living types from within the onto-poietic web of life itself. The human creative act reveals itself as the Great Divide of the Logos of Life - a divide that does not separate but harmonizes, thus dispelling both naturalistic and spiritualistic reductionism.

Mapping Discord examines a series of allegorical maps published in France during the seventeenth century that cast in spatial terms a number of heated aesthetic and social debates. It discusses the convergence of map-making and literary creation in the context of early modern cartographic practice, and demonstrates that the unique language of allegorical cartography raises important theoretical questions about the relations between rationalist discourses of science and the figural designs of imaginative writing. In detailed analyses of the imaginary maps that appeared in seventeenth-century novels and stories, as well as of maps, atlases, and geographic treatises produced by professional scholars and engineers of the period, Mapping Discord considers the ideological structure and uses of cartographic language, and argues that allegorical maps have much to tell us about the potential capacity of every map to operate as a visual metaphor for power. Illustrated, Jeffrey N. Peters is Associate Professor of French at the University of Kentucky.

The Life of Stephen the Younger is one of the rare sources for Byzantium in the 'Dark Ages' and one of the key witnesses to the history of Iconoclasm. This book presents a new edition of the text,

together with a French translation and commentary, and an important introduction. Stephen was a hermit, killed in 765 at the order of the emperor Constantine V; his Life was written in 809, some forty years after the 7th Ecumenical Council, Nicaea II, at which Orthodoxy was affirmed. Professor Auzépy shows how the Life reflects the politics of the era, both those of the patriarchate on which the author depended, and of the female monastery near which Stephen had lived, and transforms the probable victim of a failed political plot into a Christ-like figure martyred by a diabolic emperor. La Vie d'Etienne le Jeune est une des rares sources sur l'histoire de Byzance durant le Haut Moyen-Age et un témoignage majeur de la querelle iconoclaste. Cet ouvrage, comprenant une importante introduction, présente une nouvelle édition du texte, accompagnée d'une traduction française annotée. Etienne est un ermite qui fut assassiné en 765 sur l'ordre de l'empereur Constantin V. Sa Vie fut écrite en 809, une quarantaine d'années après le septième concile œcuménique de Nicée II, au cours duquel fut affirmé l'Orthodoxie. Le professeur Auzépy démontre comment la Vie reflète les enjeux politiques de cette époque, ceux du patriarcat dont l'auteur dépendait comme ceux du monastère de femmes auprès duquel Etienne a vécu, et comment la Vie transforme son héros, probablement mis à mort dans le cadre d'un complot, en une figure de saint moine martyrisé par un empereur diabolique. Winner of the "Prix Charles Diehl de l'Académie des Inscriptions et Belles-Lettres 1999".

Blessed are the poor, for they shall inherit the earth. The Haitians inherited the most beautiful earth. They are the poorest country in the Western Hemisphere. And never will an American know their level of their poverty. Nor the amount of death that lives in their history. However they can be saved, and I dearly wish they will be. No person should suffer as they suffer because of histories past. This is where this dream takes you. Surpass the pain and look for the hope, without hope there is nothing but nothing, nothing but the truth. Amonnon's Dream: A warning to world leaders. This is a book intended to change the world. Read it as such. If one poem moves your heart Then I have done my part To move your soul As mine was moved

This volume of collected essays explores the premise that Plutarch's work, notwithstanding its amazing thematic multifariousness, constantly pivots on certain ideological pillars which secure its unity and coherence. So, unlike other similar books which, more or less, concentrate on either the Lives or the Moralia or on some particular aspect(s) of Plutarch's oeuvre, the articles of the present volume observe Plutarch at work in both Lives and Moralia, thus bringing forward and illustrating the inner unity of his varied literary production. The subject-matter of the volume is uncommonly wide-ranging and the studies collected here inquire into many important issues of Plutarchean scholarship: the conditions under which Plutarch's writings were separated into two distinct corpora, his methods of work and the various authorial techniques employed, the interplay between Lives

and Moralia, Plutarch and politics, Plutarch and philosophy, literary aspects of Plutarch's œuvre, Plutarch on women, Plutarch in his epistemological and socio-historical context. In sum, this book brings Plutarchean scholarship to date by revisiting and discussing older and recent problematization concerning Plutarch, in an attempt to further illuminate his personality and work.
