Although none of the luxury fibres, including silk, is produced in large quantities, their particular and unique qualities of fineness, softness, warmth and pleasurable handle mean that they occupy a very important place in the luxury apparel and fine furnishing trades. This book covers all aspects of the growth, physical characteristics, production, marketing and consumption of silk, mohair, cashmere, camelhair, Alpaca, Llama, Vicuna, Guanaco, Yak and Musk Ox fibres. The image of these fabrics is of course all important and the

book describes in detail those rare occasions when a lower priced and lower quality version of a luxury fibre has damaged its overall reputation. Some natural fibres covered here including spider silk are also increasingly finding applications within the technical textiles sector where their high performance thermal properties and bio-mimetic qualities in particular, are very useful. This is an essential reference for all those involved in any part of the luxury fibre trade. Covers all aspects of the growth, physical characteristics, production, marketing and consumption of silk, mohair, cashmere, camelhair, Alpaca, Llama, Vicuna, Guanaco, Yak and Musk Ox fibres Describes the rare occasions when a lower priced and lower quality version of a luxury fibre has damaged its overall reputation

'Hidden in the Mists is her best book yet. Her meticulous research created such authenticity that I felt as if I were living the entwined past and present stories with the beautifully realised characters' SUE MOORCROFT 'I was spellbound . . . I think it is the author's best book yet, and I do not say that lightly, because all of her books are good' □ □ □ □ reader review 'A brilliant timeslip from the timeslip queen herself . . . ..... A love forged in fire lives on through the ages . . . Skye Logan has been struggling to run her remote farm on Scotland's west coast alone ever since her marriage fell apart. When a handsome stranger turns up looking for work, it seems that her wish for help has been granted. Rafe Carlisle is searching for peace and somewhere he can forget about the last few years. But echoes of the distant past won't leave Skye and Rafe alone, and they begin to experience vivid dreams which appear to be linked to the Viking jewellery they each wear. It seems that the ghosts of the past have secrets . . . and they have something that they want Skye and Rafe to know.

..... Just some of the rich praise for Christina Courtenay's pacy, evocative and romantic novels including Echoes of the Runes and The Runes of Destiny, out now: 'Wonderfully written and a real page turner. Christina tells a story equally as well as Barbara Erskine' □ □ □ □ reader review 'Fabulous. The agricultural world of Old Testament Israel swarmed with animals—birds, insects, fish, pack animals, pets, animals for hunting, and domesticated herds of sheep, goats, and cattle. Using information from the Bible, Ancient Near Eastern documents, anthropology, and archaeology, Borowski synthesizes what we know about the use of animals in biblical times for food, clothing, transportation, and even cultic practices.

This comprehensive catalog is a convenient desk resource for any reader—whether biblical scholar, archaeology student, or layperson. Essays on pastoral systems, cult, and agricultural economics, makes this also an important tool for researchers.

This book is the first to explore handicrafting practiced by media fans, their online fan communities and the multiple meanings they create. Based on in-depth ethnographic research into fans on the online social network for knitters, crocheters and crafters, Ravelry, Brigid Cherry explores textile craft by fans as both an artistic practice and transformative fan work. Including case studies of projects inspired by Doctor Who, True Blood, Firefly, Harry Potter, Sherlock and steampunk, the book engages with many forms of fan production, including fan art, fan fiction and cosplay. Fans of popular films and TV shows are increasingly engaging with textile crafts as a way of reworking, reimagining and engaging with cult media texts. Proving a global phenomenon amongst fan cultures in the digital media sphere, traditional film and

TV audiences are forging their fan identities and participating in wider fan communities in innovative ways through online craft forums and blogs that showcase their knitting, crochet, spinning and dyeing projects. Exploring key debates from textile and media theory, surrounding gender, domesticity, the culture industries, audiences and fan culture, this book is essential reading for students of textiles, media studies, fashion, cultural and gender studies.

Ladies' Home Companion Rowman & Littlefield

In the tradition of Galileo's Daughter and Brunelleschi's Dome, this exciting story illuminates the captivating world of the late Renaissance—in this case its plagues, remedies, and alchemy—through the life of Leonardo Fioravanti, a brilliant, remarkably forward-thinking, and utterly unconventional doctor. Fioravanti's marvelous cures and talent for self-aggrandizement earned him the adoration of the people, the scorn of the medical establishment, and a reputation as one of the age's most colorful, combative figures. Written by Pulitzer-prize nominated historian William Eamon, *The Professor of Secrets* entices readers into a dangerous scientific

underworld of sorcerers and surgeons. Meticulously researched and engagingly written, this gripping narrative will appeal to those interested in Renaissance history, the development of science, and the historical thrillers so popular today.
