Seeing the World Through Shape How do  
humans make sense of the world? In  
answer to this timeless question, award

winning documentary filmmaker, Lois  
Farfel Stark, takes the reader on a  
remarkable journey from tribal  
ceremonies in Liberia and the pyramids  
in Egypt, to the gravity-defying  
architecture of modern China. Drawing  
on her experience as a global explorer,  
Stark unveils a crucial, hidden key to  
understanding the universe: Shape itself.  
The Telling Image is a stunning synthesis  
of civilization's changing mindsets, a  
brilliantly original perspective urging you  
to re-envision history not as a story of  
kings and wars but through the lens of

shape. In this sweeping tour through time, Stark takes us from migratory humans, who imitated a web in round-thatched huts and stone circles, to the urban ladder of pyramids and skyscrapers, organized by hierarchy and measurements, to today's world of interconnected networks. In *The Telling Image* Stark reveals how buildings, behaviors, and beliefs reflect humans' search for pattern and meaning. We can read the past and glimpse the future by watching when shapes shift. Stark's beautifully illustrated book asks of all its readers: See what you think.

All too often in our great nation's history there seems to be some sort of a separation between the great expectations of the American Education

system, the greatness of our masses, and the awesomeness of the Department of Defense. Some have said, "No American Educator wants a soldier, sailor or airman telling them how to teach in the average American classroom."

Fans Maple Valley became Amelia Bentley's haven after her heart and her dreams of a family were shattered, but her new life as a newspaper editor is shaken when the paper is bought out by a chain that plans to incorporate it into a regional paper. After his biggest campaign success yet, speechwriter Logan Walker is approached to work on a presidential campaign. But he already lost his wife three years ago, and saying yes to the job means he'll see his young daughter even less. When Logan hears of a special election campaign in his hometown, helping out sounds like the perfect way to occupy himself while deciding what to do. When Amelia hears Logan is back in town, she begs him to lend his previous experience in the newspaper world to help turn her paper's

numbers around in time. They may butt heads more than they expected, but a lead on a story that could help save the paper is just the start of the sparks that fly in the office and in their hearts.

An uplifting account of a young woman's efforts to live life to its fullest while gradually going blind describes her diagnosis with retinitis pigmentosa at age 19, her reckless relationships, training at a circus school and extensive travels before unexpectedly falling in love and becoming pregnant. 30,000 first printing.

**Flying Minute Men** Turner Publishing Company

Women run wind tunnel experiments, direct air traffic, and fabricate airplanes. American women have been involved with flight from the beginning, but until 1940, most people believed women could not fly, that Amelia Earhart was an exception to the rule. World War II changed everything. "It is on the record

that women can fly as well as men," stated General Henry H. Arnold, commanding general of the Army Air Forces. The question became "Should women fly?" Deborah G. Douglas tells the story of this ongoing debate and its impact on American history. From Jackie Cochran, whose perseverance led to the formation of the Women's Army Service Pilots (WASP) during World War II to the recent achievements of Jeannie Flynn, the Air Force's first woman fighter pilot and Eileen Collins, NASA's first woman shuttle commander, Douglas introduces a host of determined women who overcame prejudice and became military fliers, airline pilots, and air and space engineers. Not forgotten are stories of flight attendants, air traffic controllers, and mechanics. American Women and

Flight since 1940 is a revised and expanded edition of a Smithsonian National Air and Space Museum reference work. Long considered the single best reference work in the field, this new edition contains extensive new illustrations and a comprehensive bibliography.

*My Brothers' Flying Machine* Penguin  
From NPR correspondent Keith O' Brien comes this thrilling Young Readers' edition of the untold story about pioneering women, including Amelia Earhart, who fought to compete against men in the high-stakes national air races of the 1920s and 1930s--and won. In the years between World War I and World War II, airplane racing was one of the most popular sports in America. Thousands of fans flocked to multiday

events, and the pilots who competed in these races were hailed as heroes. Well, the male pilots were hailed. Women who flew planes were often ridiculed by the press, and initially they weren't invited to race. Yet a group of women were determined to take to the sky--no matter what. With guts and grit, they overcame incredible odds both on the ground and in the air to pursue their dreams of flying and racing planes. *Fly Girls* follows the stories of five remarkable women: Florence Klingensmith, a high school dropout from North Dakota; Ruth Elder, an Alabama housewife; Amelia Earhart, the most famous, but not necessarily the most skilled; Ruth Nichols, a daughter of Wall Street wealth who longed to live a life of her own; and Louise Thaden, who got her start selling coal in Wichita.

Together, they fought for the chance to race against the men--and in 1936 one of them would triumph in the toughest race of all. Complete with photographs and a glossary, *Fly Girls* celebrates a little-known slice of history wherein tenacious, trail-blazing women braved all obstacles to achieve greatness.

*Steve Jobs* Da Capo Press

Amelia Earhart captured the hearts of the nation after becoming the first woman to fly solo across the Atlantic in 1928. And her disappearance on an around-the-world flight in 1937 is an enduring mystery. Based on ten years of research, *East to the Dawn* provides a richly textured portrait of Earhart in all her complexity. It's the perfect complement to the October 2009 movie *Amelia*, starring Hilary Swank, Richard

Gere, and Ewan McGregor.

NEW YORK TIMES BESTSELLER From the mind of Broad City's Abbi Jacobson, author of *I Might Regret This*, a wonderfully weird and weirdly wonderful illustrated look at the world around us—all through the framework of what we carry. "Jacobson's art is warm, textured, and carefully composed, a little bit Maira Kalman and a little bit Roz Chast. It's also genuinely funny." —Vox With bright, quirky, and colorful line drawings, Jacobson brings to life actual and imagined items found in the pockets and purses, bags and glove compartments of real and fantastical people—whether it's the contents of Oprah's favorite purse, Amelia Earhart's

pencil case, or Bernie Madoff's suitcase. How many self-tanning lotions are in Donald Trump's weekender? What's inside Martha Stewart's hand-knit fanny pack? What kind of protein bars does Michelle Obama hide in her tiny clutch at

the White House Correspondents' Dinner? An instant New York Times bestseller, Carry This Book provides a humorous and insightful look into how the things we carry around every day make up who we are.
