Sharing our stories, who we are, what we love, how we feel, why we fear, connects us to one another. Weaving moments of grace with spiritual practices that have grounded her through life's challenges, Laurie Blefeld invites the reader into her sacramental stories. You will find yourself in

Laurie's stories and reclaim bits and pieces of your own. "Our days are a stream of moments - some devastating, some down to earth and some filled with ineffable meaning. Laurie Blefeld has written a book full of tender moments that warm the heart and remind us to be grateful for and conscious of how laced with grace our lives really are. This is a book to enjoy and treasure."- Gunilla Norris, author of *Sheltered in the Heart and Companions on the Way: A Little Book of Heart-full*

Practices "Laurie's transformational stories, told in her authentic and lyrical voice, are evocative of the highs and lows in everyone's life. Laurie's generous prose connects us to her family's living history - and through it to our own. She is a natural spiritual teacher. Moments of Grace is luminous, warm, comforting and filled with such good practices."- Dr. Joan Borysenko, from the Foreword

One of the Best Cookbooks of the Year as

chosen by The Guardian, BookRiot, The Kitchn, KCRW, and Literary Hub A dazzling celebration of Palestinian cuisine, featuring more than 80 modern recipes, captivating stories and stunning travel photography. Yasmin Khan unlocks the flavors and fragrances of modern Palestine, from the sun-kissed pomegranate stalls of Akka, on the coast of the Mediterranean Sea, through evergreen oases of date plantations in the Jordan Valley, to the fading fish markets of

Gaza City. Palestinian food is winningly fresh and bright, centered around colorful mezze dishes that feature the region's bountiful eggplants, peppers, artichokes, and green beans; slow-cooked stews of chicken and lamb flavored with Palestinian barahat spice blends; and the marriage of local olive oil with earthy za'atar, served in small bowls to accompany toasted breads. It has evolved over several millennia through the influences of Arabic, Jewish, Armenian,

Persian, Turkish, and Bedouin cultures and civilizations that have ruled over, or lived in, the area known as ancient Palestine. In each place she visits, Khan enters the kitchens of Palestinians of all ages and backgrounds, discovering the secrets of their cuisine and sharing heartlifting stories.

This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than

two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.

The Killer Inside Me Paul Zante

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of

masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young

men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and

undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Everyone in the small town of Central City, Texas loves Lou Ford. A deputy sheriff, Lou's known to the small-time criminals, the real-estate entrepreneurs, and all of his coworkers -- the low-lives, the big-timers, and everyone in-between -- as the nicest guy around. He may not be the brightest or the most interesting man in town, but nevertheless, he's the kind of officer you're happy to have keeping your streets safe. The sort of man you might even wish your daughter would

end up with someday. But behind the platitudes and glad-handing lurks a monster the likes of which few have seen. An urge that has already claimed multiple lives, and cost Lou his brother Mike, a self-sacrificing construction worker fell to his death on the job in what was anything but an accident. A murder that Lou is determined to avenge -- and if innocent people have to die in the process, well, that's perfectly all right with him. In *The Killer Inside Me*, Thompson goes

where few novelists have dared to go, giving us a pitch-black glimpse into the mind of the American Serial Killer years before Charles Manson, John Wayne Gacy, and Brett Easton Ellis's *American Psycho*, in the novel that will forever be known as the master performance of one of the greatest crime novelists of all time. Why did God make germs? Why should we be so special? Could the universe have been different? This is a book that brings home, in no uncertain fashion, the discrepancy between the universe envisaged by the ancient sages and prophets and that of

modern scientific cosmology, where the possibility of divine intervention looks less and less likely. Butchins demonstrates with clarity how the scientific method may be used, despite certain drawbacks, in an attempt to verify objective truth. It describes how the effect of the Copernican Revolution in the seventeenth century has steadily undermined the basic structure of the three great monotheistic religions of our day, Judaism, Christianity, and

Islam, especially with respect to their eschatological concepts. The Eastern religions, being less anthropomorphic, are less affected. The theistic argument from design is shown to be powerful enough to have caused disagreement among present-day scientists, in spite of the strictures of Professor Dawkins. In general, the book attempts to make some sense of the structure of the universe in terms of our own consciousness; it behoves the reader to

Brutified is a collection of
 poetry written by the
 author Robert Benefiel.
 The poems contained
 within it are from a larger
 cache of poems written in
 2019. The pieces
 themselves range from

narrative to abstract,
 bibliographical to
 fictionalized, allowing for
 a fuller range of
 expression and voice.
 What each piece carries is
 the idea of surviving the
 brutality of the world,
 others, and even one's
 self, in hopes of gaining
 insight and retaining one's
 compassion. Whether the
 piece is addressing the
 idea of finding one's own
 art at a junk store, or
 stumbling across a love
 note written before, but
 after, a lover has left
 them, or even watching a
 young midget be chased

through the mall, the author never ceases to try and present the emotion and meaning at the core of each piece in a blatant yet subtle way.
