The Textile American Routledge
Everything old is new again in this
collection of fun, hip knitting patterns
dating from the early 1900s through the
1970s. Within the pages of this book
you'll find everything from the pattern for
those classic embroidered mittens your

grandmother knitted to the alluring
mohair sweater your mother stitched
during her college days. Retro Knits
collects 50 vintage patterns for items as
stylish today as they were in their time.
Organized by decade, these patterns
have been culled from vintage pattern
books published by yarn makers, and
feature old photos, pattern book covers,
and original instructions. The patterns--
for hats, mittens, socks, scarves,
sweaters, vests, and shawls, all picked to
exemplify the era of origin--also offer
modern yarn and needle suggestions,
new schematics, and updated sizing.

"What an astonishing life and what a
remarkable biography. Lewis Barney's
sojourn on the hard edge of the
American frontier is a forgotten epic. Not
only does this book tell of an amazing
personal odyssey from his birth in
upstate New York in 1808 to his death in
Mancos, Colorado, in 1894, but Barney's
tale represents a living evocation of
some of the most significant themes in
American history. Frederick Jackson
Turner theorized that the frontier shaped
our national character, but Lewis

Barney's life stands as a testament to the real impact of the westering experience on a man and his family. Ron Barney's detailed biography of Lewis Barney provides a participant's view of Mormonism's first six decades of controversy, hardship, and triumph, viewed from the bottom of the social heap. Despite his wide-ranging experience and endless sacrifices, Lewis Barney was a worker in the Mormon vineyard, not one of the princes of the Kingdom of God whose lives have been so exhaustively celebrated. Barney's lack of status in this complex hierarchy adds tremendously to the value of this study, since so much nineteenth-century LDS biography has ignored the lives of ordinary people to celebrate a surprisingly small elite whose experiences were far different from those of the general Mormon population." —Will Bagley, editor of the series *Kingdom in the West: The Mormons and the American Frontier* and editor of *The Pioneer Camp of the Saints: The 1846-1847 Mormon Trail Journals of Thomas Bullock*.

Create a suave high-flying rhino, a lovesick elephant who knows her way around a kitchen, and a seriously chivalrous tiger . . . With just two weeks to go before her baby Edward's due date, yarn enthusiast Kerry Lord picked up a crochet hook for the first time, and a new obsession began. Over the next twelve months, the collection of crochet animals expanded week by week until Edward's Menagerie was complete—with forty unique patterns. These cute animals with larger-than-life personalities are made using simple crochet techniques, and the step-by-step instructions enable a complete beginner to get hooking straight away. Each

animal also has a universal pattern, allowing crocheters to change their hooks and yarns to create four different sizes, making for 160 different possibilities. Be warned—these unlikely characters, made using a super-soft yarn in a sumptuous natural color palette, will become your new best friends as you hook your way through the whole menagerie!

The Sailor's Magazine, and Naval Journal

Taking a global, multicultural, social, and economic perspective, this work explores the diverse and colourful history of human attire. From prehistoric times to the age of globalization, articles cover the evolution of clothing utility, style, production, and commerce, including accessories (shoes, hats, gloves, handbags, and jewellery) for men, women, and children. Dress for different climates, occupations, recreational activities, religious observances, rites of passages, and other human needs and purposes - from hunting and warfare to sports and space exploration - are examined in depth and detail. Fashion and design trends in diverse historical periods, regions and countries, and social and ethnic groups constitute a major area of coverage, as does the evolution of materials (from animal fur to textiles to synthetic fabrics) and production methods (from sewing and weaving to industrial manufacturing and computer-aided design). Dress as a reflection of social status, intellectual and artistic trends, economic conditions, cultural exchange, and modern media marketing are recurring themes. Influential figures and institutions in fashion design, industry and manufacturing, retail sales, production technologies, and related fields are also covered.
