ROWE LAWRENCE

Kenya National Assembly Official Record (Hansard) University of Ottawa Press
 This book considers the role of trade unions in national development and governance in Kenya. It covers a range of topics, including union policy positions on the introduction of laptops in schools, technologies and productivity measurements, and e-participation in national and international labor solidarity.
Judicial Bench Book on Violence Against Women in Commonwealth East Africa Springer
 This book focuses on the core problems of occupational health, safety and well-being of workers in the informal sector in

developing countries, where it accounts for most of the rural labour force and a substantial percentage of the urban labour force. The sector is characterised by low incomes, unstable employment and lack of protection in the form of legislation/policies or trade unions. Though some health and problem-solving measures have been introduced, a focused academic effort to address the problems confronting workers in the unorganised sector, or informal economy, is lacking. The book evaluates workers' physical and mental health in the context of labour migration, social inclusion of minorities and the differently abled, provisions for women workers, demonetisation, occupational safety for hazardous work, and in connection with various areas of informal work, e.g. agriculture, construction, transportation,

sanitation, tanning, the tobacco industry, powerloom industry, surrogacy, and self-employment. It provides a well-rounded description of an analytical reflection on the challenges these workers face and focuses on social policy changes to help alleviate them. Accordingly, it offers a valuable asset for researchers and students interested in development studies, the sociology of work, health and labour economics, public health, and social work.

The very best of the world's best researchers have discovered a way to develop Africa: Way Omega. Now Africa's heads of state are at a summit to approve it. If they do, it promises Africa will start developing immediately. Unknown to the summit are aggrieved conspirators plotting to defeat Way Omega and replace it with a rival strategy: Path Alpha. Their path, they say, is the only way. Should the summit still follow Way Omega, or make a U-turn? Fathers of Nations is a satire on contemporary African politics.

Trade Unions and the Age of Information and Communication Technologies in Kenya Commonwealth Secretariat

Controversy shrouds sharing economy platforms. It stems partially from the platforms' economic impact, which is felt most acutely in certain sectors: Uber drivers compete with taxi drivers; Airbnb hosts compete with hotels. Other consequences lie elsewhere: Uber is associated with a trend toward low-paying, precarious work, whereas Airbnb is accused of exacerbating real estate speculation and raising the cost of long-term rental housing. While governments in some jurisdictions have attempted to rein in the platforms, technology has enabled such companies to bypass conventional regulatory categories, generating accusations of "unfair competition" as well as debates about the merits of existing regulatory regimes. Indeed, the platforms blur a number of familiar distinctions, including personal versus commercial activity; infrastructure versus content; contractual autonomy versus hierarchical control. These ambiguities can stymie legal regimes that rely on these distinctions as organizing principles, including those relating to labour, competition, tax, insurance, information,

the prohibition of discrimination, as well as specialized sectoral regulation. This book is organized around five themes:

technologies of regulation; regulating technology; the sites of regulation (local to global); regulating markets; and regulating labour. Together, the chapters offer a rich variety of insights on the regulation of the sharing economy, both in terms of the traditional areas of law they bring to bear, and the theoretical perspectives that inform their analysis. This book is published in English. - La controverse entoure les plateformes d'économie de partage, partiellement en raison de leur impact économique. Certains secteurs subissent des contrecoups de manière plus aigüe : les chauffeurs d'Uber font concurrence aux chauffeurs de taxi, ou les hôtes Airbnb rivalisent avec les hôtels. Par ailleurs, Uber exacerberait l'emploi précaire et mal rémunéré tandis qu'Airbnb amplifierait la spéculation immobilière et entraînerait, à terme, une hausse du coût de location. On a tenté de régler ce type de plateformes, mais la technologie est telle qu'elle permet aux entreprises d'aisément contourner la réglementation conventionnelle, si bien que les accusations de « concurrence déloyale » fusent de toutes parts, provoquant une remise en question du cadre réglementaire. En effet, de telles plateformes viennent brouiller les cartes, confondant les distinctions convenues entre personnel et commercial, infrastructure et contenu, autonomie contractuelle et contrôle hiérarchique. Cette ambiguïté peut avoir d'importantes répercussions sur le bon fonctionnement de l'appareil réglementaire qui encadre les principes organisateurs du travail, de la concurrence, de l'impôt, de l'assurance, de l'information et de l'interdiction de la discrimination, sans parler de la réglementation sectorielle spécialisée. Cinq thématiques sont abordées dans cet ouvrage : les technologies de la réglementation; la réglementation de la technologie; les lieux de la réglementation (du local au mondial); la réglementation des marchés; et la réglementation du travail. Les chapitres se conjuguent pour offrir une réflexion d'une gamme d'experts sur la jurisprudence traditionnelle que sur les approches théoriques qui informent et façonnent la réglementation de l'économie du partage. Ce livre est publié en anglais. *Strategy for the Revitalization of Public Financial Management System in Kenya* Walter de Gruyter GmbH & Co KG

Insights into Modern World History is a material that uses interpretative approach to examine political, social, and economic changes of the twentieth- to twenty-first-century world. A substantially updated approach to 2015 exactly in line with Upper Secondary School Certificate Examination (USSCE) requirements. This book is perfected purposely for Papua New Guinea schools. A convenient text material for both teachers and students to have access and gain the insights of modern world history. The National Department of Education's motto is Prosperity through self reliance; thus this project is one out of many the department is yet to accomplish. Plenty of maps and cartoons are included in each unit. All units are summarized by external exam-type review questions. The trends in Papua New Guinea history beginning 1526 from the first explorer who sighted our island to 1884, formal proclamation by Germany and Britain to 1951, the first twenty-nine-member legislative council. The chronology counts on to 1964, first elections to 1973, self-government to 1975, our independence. As I write, the country is turning forty years now. This text material is the 2015

latest version. There are four important chapters included and the chapters are (1) Writing a good Essay, (2) The Chronicles: Key Events of the World, (3) The Chronicles: Key Events of Papua New Guinea, and (4) The Glossary. These chapters give detailed information chronologically.

This is 4-H Gulf Professional Publishing English in Kenya is a stable post-colonial variety that is used as an inter-ethnic lingua franca in private domains, is the medium of instruction as well as the language spoken in parliament and court rooms. Yet so far no comprehensive research monograph on Kenyan English has been published that surveys its characteristic linguistic features. The present book closes this gap by giving a full description of the characteristic linguistic features of Kenyan English. The book provides an in-depth overview of Kenyan English phonetics, phonology, morphology, syntax, semantics and pragmatics and also gives a meticulous account of the diachronic evolution of this post-colonial variety.

A New Bislama Dictionary

Petroleum Production Engineering, Second Edition, updates both the new and veteran engineer on how to employ day-to-day production fundamentals to solve real-world challenges with modern technology. Enhanced to include equations and

references with today's more complex systems, such as working with horizontal wells, workovers, and an entire new section of chapters dedicated to flow assurance, this go-to reference remains the most all-inclusive source for answering all upstream and midstream production issues. Completely updated with five sections covering the entire production spectrum, including well productivity, equipment and facilities, well stimulation and workover, artificial lift methods, and flow assurance, this updated edition continues to deliver the most practical applied production techniques, answers, and methods for today's production engineer and manager. In addition, updated Excel spreadsheets that cover the most critical production equations from the book are included for download. Updated to cover today's critical production challenges, such as flow assurance, horizontal and multi-lateral wells, and workovers Guides users from theory to practical application with the help of over 50 online Excel spreadsheets that contain basic production equations, such as gas lift potential, multilateral gas well deliverability, and production forecasting Delivers an all-inclusive product with real-world answers for training or quick look up solutions for the entire petroleum production spectrum Kenya National Assembly Official Record (Hansard)

This book analyzes the common set of obstacles to the development and integration of government Information and Communication Technology (ICT) projects and effective e-government initiatives in developing countries. It draws on the expertise and experience of more developed states in the Pacific, notably Australia and New Zealand, both highly rated in global rankings for e-government and active in a variety of e-government development projects across the region. There has been a general failure to identify priorities and align projects with local needs in ICT/e-government projects. Small Island Developing States (or SIDS) present a unique problem in terms of e-

government. Not only do they suffer from a common set of barriers to ICT development such as their remoteness, geographical dispersion, moist tropical climates, largely rural populations, and lack of ICT capacity and infrastructure, but are also dependent on external agencies for investment, and must negotiate with powerful donors who have conflicting agendas. E-government is widely regarded as 'transformational', increasing efficiency, productivity, accountability, economic growth, and citizen involvement. But while the governments of SIDS are committed to harnessing ICTs for effective government and economic development, they face major challenges in establishing successful e-government initiatives, due to the problems outlined above, coupled with a lack of HR capacities and appropriate strategies and policies. Drawing on the experience of the states mentioned above, as well as regional quasi-governmental bodies, nongovernmental organizations (NGOs), aid agencies, and the private sector, the book will be of interest to researchers and students in the fields of e-government, public administration, political science, communication, information science, and social media.
