LEGO Harry Potter Penguin

From New York's Empire State Building to the Eiffel Tower, Dubai's iconic Burj Al Arab hotel to London's St Pancras station, this is a glorious, full colour

celebration of the world's most distinctive buildings and urban icons, recreated in LEGO bricks. Brick City is a celebration of the world's favourite buildings and urban icons, recreated solely using LEGO bricks. While to many, LEGO bricks are 'just a toy,' to an ever-growing army of fans they provide a challenging and enjoyable modelling medium. These fans, calling themselves 'AFOLs' or Adult Fans of LEGO have taken it upon themselves to recreate local landmarks using just the bricks that you find at a local store. LEGO models created by adult fans though, don't resemble those that many people created as a child. Created by masters of their medium, these fabulously detailed models may contain thousands of pieces - or perhaps just a handful. Either way, the talented artists have an intimate knowledge of every piece and colour available; skilfully choosing the ideal piece to recreate a well-known landmark. Sometimes creating a model indistinguishable from the real thing, or evoking the spirit of a building in just a few small pieces. In fact, landmarks and cityscapes - from the New York skyline to the Sagrada Familia, London's St. Pancras, and the amazing towers of Beijing and Hong Kong - have long been a source of inspiration for LEGO builders. In this book, Warren Elsmore takes us on a world tour and explores more than 12 global cities and their iconic structures. Each city is examined and recreated in LEGO form. Comprising amazing artwork, exploratory photographs, and detailed breakdowns, Brick City looks at the essence of what makes an urban landscape recognisable.

Brick Minnesotans tirelessly shovel snow but are ready to pose with a friendly "okey-dokey!" Giving readers even more than a cross-country tour,

United States of LEGO reveals intriguing secrets of the states for the first time. The answers will surprise and delight you. Readers will also find thrilling scenes from history re-created in meticulous detail. Who can forget Lewis and Clark's intrepid manservant, Gaston? Okay, the history textbooks did, but not United States of LEGO. And what ever happened to the giant turkeys that once roamed Massachusetts? Your education may have missed these tender birds whose fate is detailed here. Every captioned photograph is infused with good-natured humor, and occasional ill-humored nature, such as the Maryland crabs who are through with being lunch. Speaking of lunch, the famous Kentucky Frying Chicken awaits your order within these pages. Don't delay! Good citizens of all ages will enjoy exploring every state's unique character in enchanting LEGO dioramas.
